SAMAEL AUN WEOR · IN HIS OWN WORDS

Every word here is his. Nothing has been paraphrased or improved. Each passage was cut out of the book it belongs to by reference, and each carries that book and the paragraph it came from, so anything on this page can be found again in the source. Most of it comes from the three books where he gave a whole lesson on the sign, the *Zodiacal Course*, the *Esoteric Treatise of Hermetic Astrology* and the *Manual of Practical Magic*; the rest are the paragraphs where he names Aquarius in other books. Many of these passages also stand in other works of the shelf, chiefly *The Words He Uses*, *The Three Factors* and *The Centres of the Human Machine*. They are gathered here on purpose: the same teaching comes back in several of them because hearing it again is how it settles.

The first part is the sign and its tables: its dates and its table, its minerals, stones and plants, the pine and the tuberose: *"The occult significance of Aquarius is Knowledge." "The pine is the tree of the new age."*

The second is the seven serpents of the seven bodies: each body Christified in turn, the seven degrees of the power of fire, and the seven portals: *"Each body has its "cerebro-spinal" nervous system, its medulla and its Kundalini." "The fire of the Holy-Spirit rises from the semen, which converts us into Gods"*

The third is the Knowledge of the Hermetic Astrology and the Second Birth: the four kinds of secret science, the three factors of the Revolution of Consciousness, the Bull Apis, and the solar bodies: *"The Second Birth is an entirely sexual problem." "It is necessary to learn to intelligently combine the waters of life within the two amphoras of Aquarius, the zodiacal sign of the Water Bearer."*

The fourth is death: the two paths that open before the twice-born, the three kinds of Tantrism, the many I's and the five centres of the machine, and sacrifice, the third factor: *"It is only by dying in oneself that we become Perfect Angels." "The Law of the Solar Logos is sacrifice."*

The fifth is Uranus and Saturn, the planets of the sign: the sexual glands they govern, the hieroglyph of the water-bearer, and the calves: *"Uranus is totally revolutionary" "…the calves are a marvelous magnetic womb."*

The sixth is the Age of Aquarius: the day and the hour it began, and its doctrine: *"The doctrine of the New Aquarian Age is the Doctrine of the Synthesis." "The new Era of Aquarius will be the Era of the intuitive humanity."*

The seventh is what the Age brings: its birth and its cataclysms, who will live in it, the return of Christ, and the age that comes after it: *"The New Aquarian Age is a birth of nature and every birth is painful." "Aquarius is the age of Christ"*

The eighth is the natives, those born under the sign: *"The great leaders of Aquarius are the revolutionaries of the era." "Aquarius is the sign of the genius"*

The ninth part is the practice: the exercise of the calves as both lessons give it, the meditation to enter the temples of the sign, its genii and its perfume: *"Energy, pass through! Energy, pass through!" "…praying to his "Inner Being" that he may enter the sidereal temples of Aquarius"*

This is the fourth of twelve, one for each sign, each released as the sun enters it.

III The pine is the tree of Aquarius

The tree of the sign is the pine, which he also calls the tree of the new age, and the perfume of that age is the tuberose. A later book adds the magic of the pine: the cross of its branches and the iron key.

THE SACRED TREE OF AQUARIUS

Cut a branch that is towards the rising sun and two branches from the side of the sunset and form a cross with these.

68. The elemental creatures of the tuberose can be utilized for goals of friendship. 69. The tuberose is the perfume of the new Aquarian Age.

Igneous Rose, 1954

The Pine is the tree of Aquarius and possesses great magical powers. Cut a branch that is towards the rising sun and two branches from the side of the sunset and form a cross with these. The body of the cross will be made with the one branch and the arms which form the cross will be made with the two branches. Create an iron key during seven Holy Fridays. Leave a concavity or orifice in this key so that you can insert the stick of the cross through it. Whosoever carries this key will be exempt from any type of sickness which is produced by witchcraft. As well, any type of sorcery or work of black magic will have no effect over the one who bears this key. The Pine is the sacred tree of Aquarius. Every Gnostic must cultivate this tree in his garden. Pine extract cures and purifies the lungs.

Part Two – seven bodies, seven medullae and seven Kundalinis

7 PASSAGES

1 Christification is achieved in parts, body by body

The lesson of Aquarius in the Zodiacal Course is on the seven serpents. Each body has its own Kundalini, and each body is Christified in turn, beginning with the physical and the etheric.

PART TWO

They are then, seven bodies, seven medullae and seven Kundalinis

BODY BY BODY

SEVEN BODIES, SEVEN MEDULLAE AND SEVEN KUNDALINIS

7	"Atmic" body	
6	Buddhic body	*the two superior serpents*
5	causal body	*The fifth serpent*
4	mental body	*the fourth Kundalini*
3	astral body	*the color of "lightening"*
2	etheric body	*the golden Kundalini*
1	physical body	*the soul-conscience*

the entire secret lies in the virile organ and in the vulva

Each body has its "cerebro-spinal" nervous system, its medulla and its Kundalini.

from Zodiacal Course, 1951

Today we have reached the constellation of Aquarius and we have to be frank.

ZODIACAL COURSE, 1951

Christification is achieved in parts, body by body. The first thing which becomes Christified is the soul-conscience, which we extract from the physical body through the Kundalini of such a body, to enrich the soul-spirit or buddhic body.

ZODIACAL COURSE, 1951

A Christified and stigmatized buddhic body inevitably fuses with the Inner Being. Then follows the christification and stigmatization of the etheric body. This is achieved through the process of progress, evolution and ascension of the Kundalini of the “etheric Body”

Zodiacal Course, 1951

This initiation confers upon him the power to travel in the etheric body throughout all the cosmic planes.

Zodiacal Course, 1951

Each body has its “cerebro-spinal” nervous system, its medulla and its Kundalini. Each body is a complete organism. They are then, seven bodies, seven medullae and seven Kundalinis after difficult efforts and terrible and painful tests, we have achieved the total ascension of the golden Kundalini of the etheric body. The sun of the Father then shines in the rain of the night, and the five-pointed star over the head of the sage indicates that he has been given in a passing mark in all the painful tests.

Zodiacal Course, 1951

The date of the second initiation of greater mysteries of the sage is then set, and the latter enters happy and victorious inside the temple to receive the second initiation of greater mysteries.

Zodiacal Course, 1951

This initiation confers upon him the power to travel in the etheric body throughout all the cosmic planes.

Zodiacal Course, 1951

The Kundalini of the etheric body opens all the faculties of the etheric body. The psychic extract of the etheric body is absorbed by the Inner Being little by little.

Zodiacal Course, 1951

4 PASSAGES

II The Kundalini of the astral body is the color of "lightening"

The third serpent belongs to the astral body. Its ascent opens the chakras of that body and leads to the third initiation.

Then follows the christification and stigmatization of the astral body. The Kundalini of the astral body is the color of "lightening" and awakens under the guidance of a specialist.

Zodiacal Course, 1951

The Kundalini of the astral body opens the chakras of the astral body for us. Therefore, the full and total development of chakras of the astral body is only obtained with the third Kundalini, which is the Kundalini of the astral body.

Zodiacal Course, 1951

> *...one has to withstand and overcome the most terrible and indescribable temptations.*
>
> Zodiacal Course, 1951

The ascension of the Kundalini of the astral body through the fine cord of the Sushumna canal, belonging to the astral medulla, is a very arduous and difficult task, because to conquer each "canyon" of the astral, one has to withstand and overcome the most terrible and indescribable temptations.

Zodiacal Course, 1951

When we have already obtained the total ascension of the Kundalini of the astral body, then follows the third initiation of greater mysteries and all the magnetic wheels or discs of the sage's astral body remain totally open and resplendent.

Zodiacal Course, 1951

3 PASSAGES

III Later comes the Christification of the mind

The fourth serpent belongs to the mind, the fifth to the causal body, and the two highest to the buddhic and the atmic bodies.

Later comes the Christification of the mind, which converts us into Arahat, This task is achieved through the mental body's Kundalini, which is the fourth Kundalini.

Zodiacal Course, 1951

> *...they confer upon us the supreme happiness and wisdom of Nirvana.*
>
> Zodiacal Course, 1951

The fifth serpent belongs to the causal body or superior manas, from where we extract the human-soul to fuse it with the Internal Master, and so we synthesize the septenary into the triad of "Atma-Buddhi-Manas".

Zodiacal Course, 1951

The two superior serpents belong to the Buddhic body and to the "Atmic" body, and they confer upon us the supreme happiness and wisdom of Nirvana.

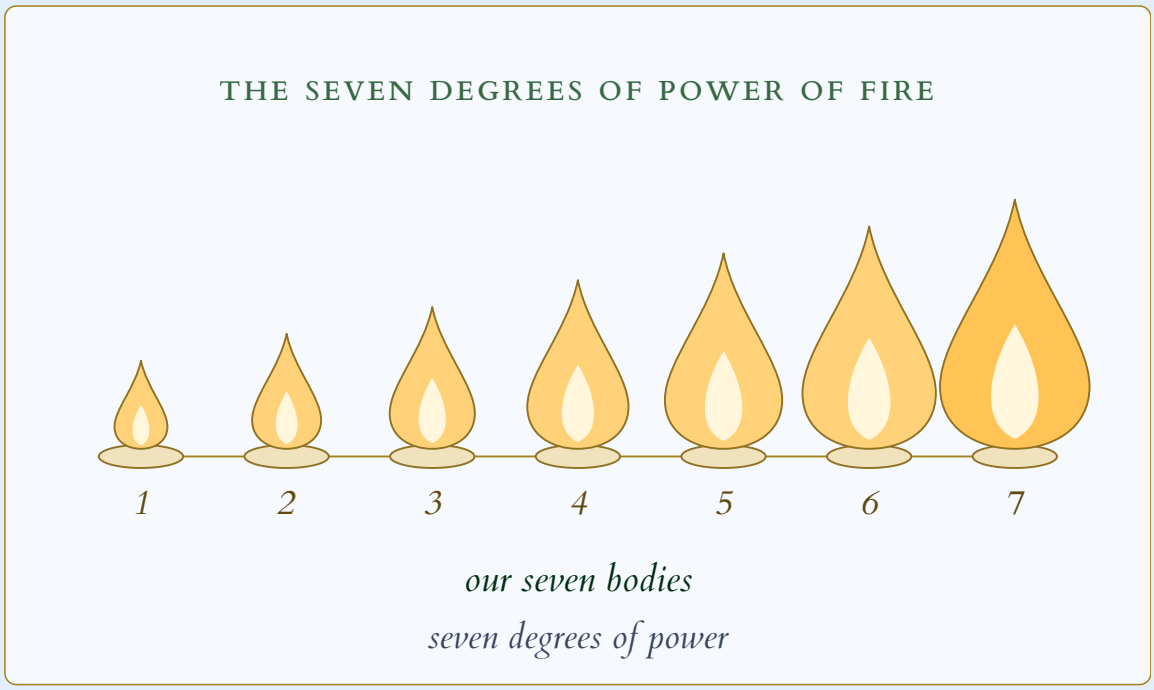

Zodiacal Course, 1951

IV The fire of the Holy-Spirit rises from the semen

The whole secret of the seven bodies lies in sex. The fire rises from the semen in seven degrees of power, and each serpent rises slowly, not all at once as was believed.

SEVEN DEGREES OF POWER

the fire of the Holy Spirit has seven degrees of power, which are the seven degrees of power of fire.

from Zodiacal Course, 1951

The eighth and ninth initiations of greater mysteries are practically macrocosmic. The important, part, therefore, resides in the "Christification" of the seven bodies, and the entire secret lies in the virile organ and in the vulva.

Zodiacal Course, 1951

The fire of the Holy-Spirit rises from the semen, which converts us into Gods, but the fire of the Holy Spirit has seven degrees of power, which are the seven degrees of power of fire.

Zodiacal Course, 1951

It has been my responsibility to remove the veil of Christification, and that is why I speak clearly, so that you may understand me.

Zodiacal Course, 1951

All the symbolical narrations of spiritualist books, when they talk to us about "Initiation", are totally allegorical, because never ever has anyone, before me, removed the veil of the seven degrees of the power of fire.

Zodiacal Course, 1951

Until not too long ago, the majority of spiritualists believed that on awakening the Kundalini, the latter instantly rose to the head and that man was automatically united with his Inner Being or Internal God, instantly, and converted into Mahatma. How comfortable ! How comfortably did all these theosophists, rosicrucians and spiritualists, etc, imagine high initiation.

Zodiacal Course, 1951

It has been my responsibility to remove the veil of Christification, and that is why I speak clearly, so that you may understand me.

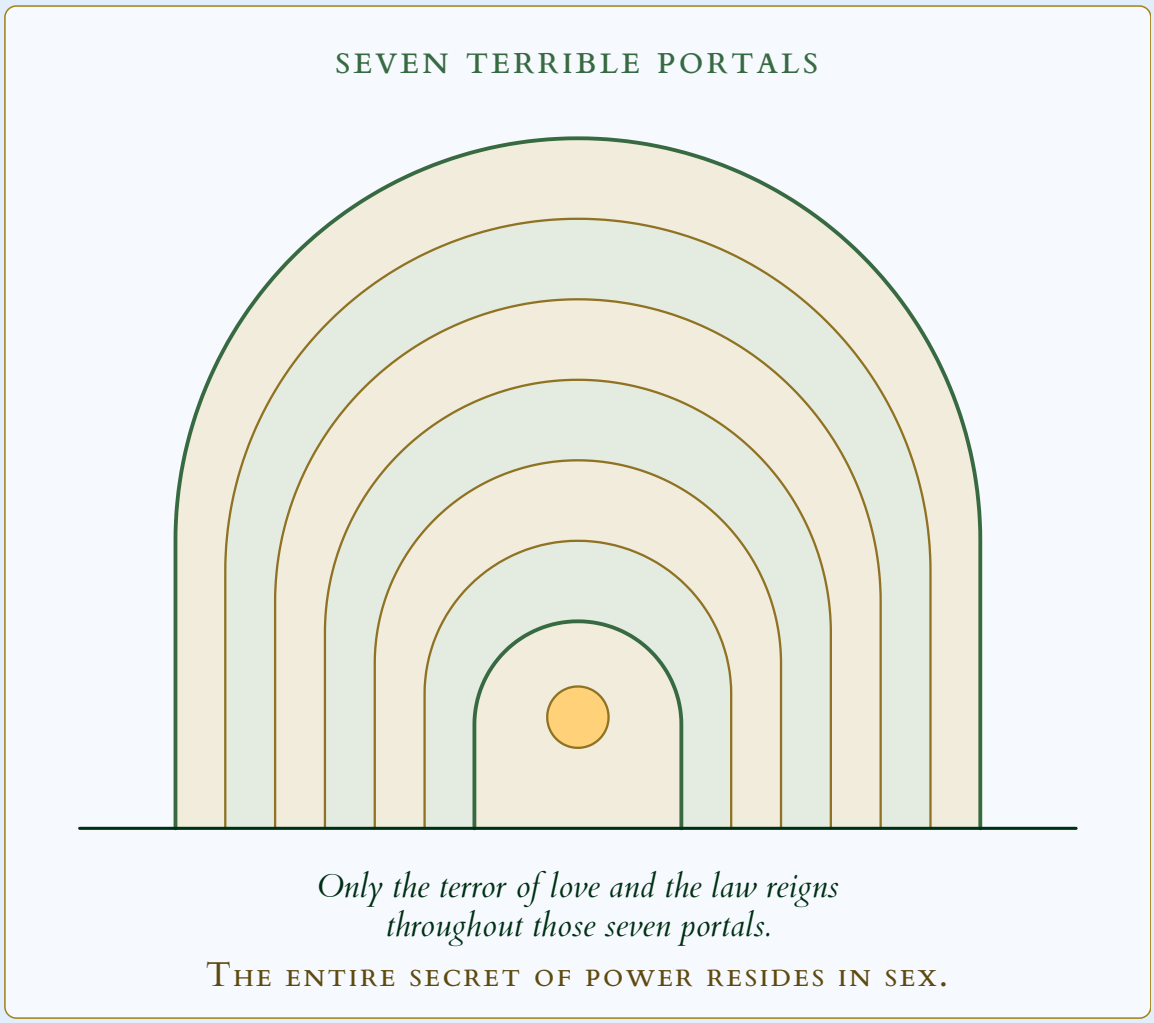

Zodiacal Course, 1951

6 PASSAGES

V They are seven serpents and seven terrible portals

The seven Kundalinis are seven degrees of the one sexual force, raised one after the other through seven portals. The key to all powers lies in sexual magic.

SEVEN PORTALS

They are seven serpents and seven terrible portals.

from Zodiacal Course, 1951

The ascension of each of the seven Kundalinis is slow and difficult. Each canyon or vertebra represents determined occult powers and that is why the conquest of each canyon costs terrible tests.

Zodiacal Course, 1951

They are seven serpents and seven terrible portals. Only the terror of love and the law reigns throughout those seven portals. Not only is it necessary to kill desire but also the very knowledge of desire. The entire secret of power resides in sex.

Zodiacal Course, 1951

The sexual force is only "one", unique and of absolutely universal character, whose principal deposit resides in the absolute.

Zodiacal Course, 1951

The sexual force is only "one", unique and of absolutely universal character, whose principal deposit resides in the absolute.

Zodiacal Course, 1951

At the beginning of the Manhanvantara, that force expresses itself through the seven degrees of power of fire, and those seven degrees reside in our seven bodies; and they are our seven Kundalinis, which we have to successively raise one after the other, through the seven portals That is why the Buddha said: "Listen to me properly, for in each human Buddha there are seven Buddhas! These are the seven psychic extracts from the seven bodies and the seven serpents."

Zodiacal Course, 1951

The sexual organs of all the living species are merely the instruments of that unique and universal sexual energy.

Zodiacal Course, 1951

The key to all the empires and the key to all the powers lie in sexual magic We must raise our metallic serpent or better said, our seven serpents over the rod, just as Moses did in the desert and thus we will convert ourselves into terrible powers of the "blissful Nirvana".

Zodiacal Course, 1951

APIS

Apis was the symbol of the Moon, both because of its horns in the shape of a crescent Moon

There are four types of knowledge or secret science.

from Esoteric Treatise of Hermetic Astrology, 1967

from Esoteric Treatise of Hermetic Astrology, 1967

There are four types of knowledge or secret science. We need to know what these four types of Knowledge are.

Esoteric Treatise of Hermetic Astrology, 1967

First: Yajna-Vidya; knowledge that is acquired with certain occult powers awakened within our own inner nature, through certain Magical Rituals.

Esoteric Treatise of Hermetic Astrology, 1967

Second: Kabbalistic Maha-Vidya; the science of the Kabbalah with all its invocations, mathematical symbols and liturgy, which can be angelic or diabolic, it all depends on the type of person that uses it.

Esoteric Treatise of Hermetic Astrology, 1967

Third: Gupta-Vidya; the science of Mantrams, the Magic of the Verb; it is based on the mystical powers of sounds, on the science of harmony.

Esoteric Treatise of Hermetic Astrology, 1967

The fundamental thing is Atma-Vidya

Esoteric Treatise of Hermetic Astrology, 1967

Fourth: Atma-Vidya or Real Wisdom of the Being, of Atmian, the Superior Monad.

Esoteric Treatise of Hermetic Astrology, 1967

All of forms of Knowledge, except the fourth, are the root of all occult sciences From all these forms of knowledge, of all of them except the fourth, come the Kabbalah, Chiromancy, Astrology, Occult Physiology, Scientific Cartomancy, etc., etc.

Esoteric Treatise of Hermetic Astrology, 1967

From all those forms of knowledge, from all those occultist branches, science has already discovered a few secrets, but the Developed Spatial Sense is not hypnotism, and neither can it be acquired through those arts.

Esoteric Treatise of Hermetic Astrology, 1967

The present book of Esoteric Hermetic Astrology has nothing to do with the carnival Astrology mentioned in newspapers. In this book we teach the Science of Atma-Vidya. The fundamental thing is Atma-Vidya; it includes all of them in their essential aspect and can even use them occasionally; but it only utilizes their synthetic extracts purified of all dross.

II the Three Factors for the Revolution of Consciousness

The door of wisdom is not crossed without three factors: the Second Birth, the death of the I, and sacrifice for humanity. The rest of the chapter takes each in turn.

THE REVOLUTION OF CONSCIOUSNESS

It is impossible to attain the Atma-Vidya without the Three Factors for the Revolution of Consciousness.

from Esoteric Treatise of Hermetic Astrology, 1967

The Golden Door of Wisdom can transform itself into the wide door and broad path, which leads to destruction, the door of magical arts practiced with egotistical ends. We are in the Age of Kali-Yuga, the Iron Age, the Black Age and all the students of Occultism are predisposed to becoming lost in the black path. It is astonishing to see the mistaken concept held by the "little brothers" regarding Occultism and the ease with which they believe they can reach the Door and cross the Threshold of Mystery without a Great Sacrifice.

Esoteric Treatise of Hermetic Astrology, 1967

It is impossible to attain the Atma-Vidya without the Three Factors for the Revolution of Consciousness.

Esoteric Treatise of Hermetic Astrology, 1967

The Atma-Vidya is impossible without first having attained the Second Birth. The Atma-Vidya is impossible without the death of the Pluralized I. The Atma-Vidya is impossible without Sacrifice for humanity.

Esoteric Treatise of Hermetic Astrology, 1967

The Path of the Revolution of Consciousness is the path of the Razor's Edge

Esoteric Treatise of Hermetic Astrology, 1967

It is not the Law of Evolution that confers the Atma-Vidya upon us. It is not the Law of Involution that confers the Atma-Vidya upon us. It is only on the basis of tremendous and frightening Inner Revolutions, that we arrive at the Atma-Vidya.

Esoteric Treatise of Hermetic Astrology, 1967

The Path of the Revolution of Consciousness is the path of the Razor's Edge; this path is terribly difficult; this path is full of dangers within and without.

Esoteric Treatise of Hermetic Astrology, 1967

We are now going to study in this chapter each of the Three Factors in an orderly and separate manner, so that Gnostic students can correctly guide themselves.

Esoteric Treatise of Hermetic Astrology, 1967

Therefore, let our readers pay much attention to the study of each of the Three Factors of the Revolution of Consciousness, because success in this Work depends on the full Comprehension of each of the Three Factors.

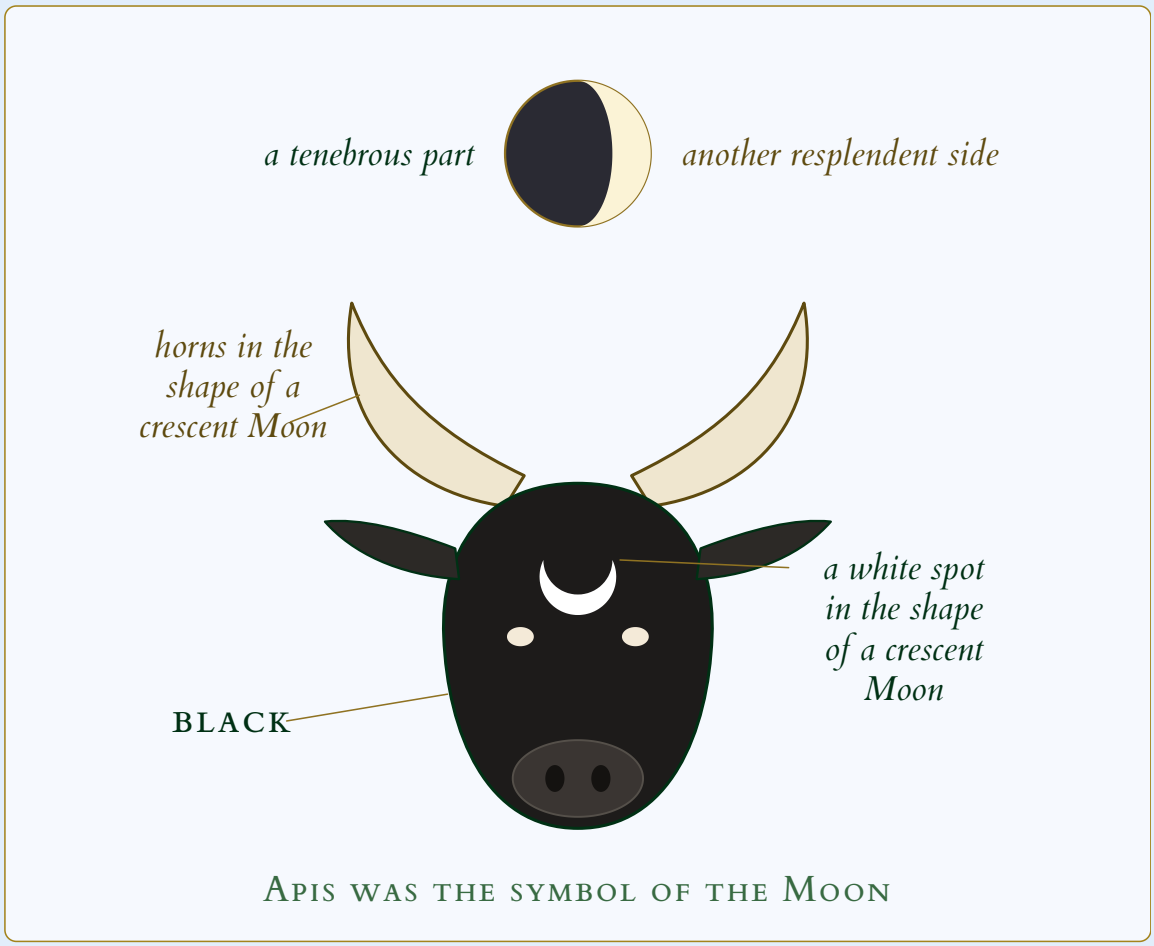

Esoteric Treatise of Hermetic Astrology, 1967

III The Second Birth is an entirely sexual problem

The first factor is the Second Birth. Its symbol in Egypt was the sacred bull Apis, a figure of the Philosopher's Stone.

THE BULL APIS

it was necessary for it to be black and to have on its forehead or on one of its shoulder blades, a white spot in the shape of a crescent Moon.

from Esoteric Treatise of Hermetic Astrology, 1967

The Second Birth is an entirely sexual problem. The Sacred Bull Apis among the ancient Egypt had to be young, healthy and strong to symbolize the Philosopher's Stone (Sex). The Greeks, instructed by the Egyptian Hierophants also represented the Philosopher's Stone in this manner, with one or several Bulls, as is also seen in the fable of the Cretan Minotaur.

Esoteric Treatise of Hermetic Astrology, 1967

The Bulls that Hercules stole from Geryon had the same alchemical meaning; we find the same symbolism in the legend of the Sacred Oxen that grazed in a tranquil manner in the Island of Sicily and which were stolen by Mercury.

Esoteric Treatise of Hermetic Astrology, 1967

Not all the sacred Bulls were black or white; some were red like those of Geryon and like those that were sacrificed by the Israelite Priest, because the Philosopher's Stone is red at a certain moment and this is known by every alchemist.

Esoteric Treatise of Hermetic Astrology, 1967

The famous Bull Apis, so adored in the Egyptian Mysteries, was the creator and prosecutor of souls.

Esoteric Treatise of Hermetic Astrology, 1967

The famous Bull Apis, so adored in the Egyptian Mysteries, was the creator and prosecutor of souls. The symbolic Bull Apis was consecrated to Isis, because it is in fact related to the Sacred Cow, the Divine Mother, Isis, whom no mortal has ever unveiled. In order for a Bull to have the high honor of being promoted to such a category, it was necessary for it to be black and to have on its forehead or on one of its shoulder blades, a white spot in the shape of a crescent Moon.

Esoteric Treatise of Hermetic Astrology, 1967

It is also true, that said sacred bull had to have been conceived under the impression of the ray and have under the tongue the mark of the sacred scarab.

Esoteric Treatise of Hermetic Astrology, 1967

Apis was the symbol of the Moon, both because of its horns in the shape of a crescent Moon, as well as because all throughout, except during the full moon, this celestial body always has a tenebrous part indicated by the blackness of the skin and another resplendent side, symbolized by the white spot.

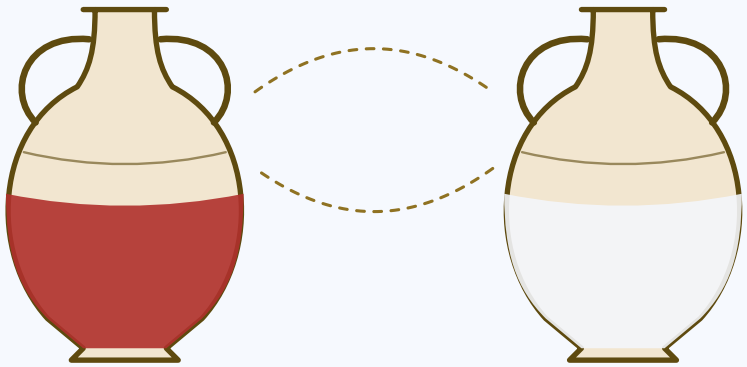

Esoteric Treatise of Hermetic Astrology, 1967

IV Apis is the Philosophical Matter, the Ens Seminis

Apis is the semen, in which the fire is found. Man and woman work with it to make the Solar Bodies, combining the waters in the two amphoras of Aquarius, the sign that Uranus governs.

THE WATERS OF LIFE

The Man and woman should work in their Laboratorium Oratorium

It is necessary to learn to intelligently combine the waters of life within the two amphoras of Aquarius, the zodiacal sign of the Water Bearer.

from Esoteric Treatise of Hermetic Astrology, 1967

Apis is the Philosophical Matter, the Ens Seminis (semen), that semi-solid, semi-liquid

substance, that Vitriol of the Alchemists.

Esoteric Treatise of Hermetic Astrology, 1967

The entire Ens Virtutis of the Fire is found within the Ens Seminis. It is necessary to transform the Moon into the Sun, in other words, to fabricate the Solar Bodies.

Esoteric Treatise of Hermetic Astrology, 1967

These are the Mysteries of Isis, the Mysteries of the Bull Apis. When the Rune IS was studied in the old Egypt of the Pharaohs, its two Masculine-Feminine aspects were studied because the sacred word ISIS is broken up into two syllables; the first syllable is masculine and the second is feminine.

Esoteric Treatise of Hermetic Astrology, 1967

The Bull Apis is the Bull of Isis, the Philosopher's Stone. The Man and woman should work in their Laboratorium Oratorium with that Philosophical Matter, they should transform the Moon into the Sun.

Esoteric Treatise of Hermetic Astrology, 1967

It is urgent to acquire magical power called Kriya-Shakti or the Will of Yoga, the magical power of Solar Men, the supreme power of Creation without Generation; and this is only possible with the Maithuna (see chapter eight).

Esoteric Treatise of Hermetic Astrology, 1967

It is necessary to transform the Moon into the Sun, in other words, to fabricate the Solar Bodies.

Esoteric Treatise of Hermetic Astrology, 1967

It is necessary to learn to intelligently combine the waters of life within the two amphoras of Aquarius, the zodiacal sign of the Water Bearer.

Esoteric Treatise of Hermetic Astrology, 1967

It is indispensable to combine the Red Elixir with the White Elixir, if one wants to attain the Second Birth.

Esoteric Treatise of Hermetic Astrology, 1967

The Moon symbolizes Isis, the Divine mother, the ineffable Prakriti and the Bull Apis represents the Philosophical Matter, the Sacred Stone of the Alchemist.

Esoteric Treatise of Hermetic Astrology, 1967

In the Bull Apis is represented the Moon, Isis, the primordial Substance, the Philosopher's Stone, the Maithuna.

Esoteric Treatise of Hermetic Astrology, 1967

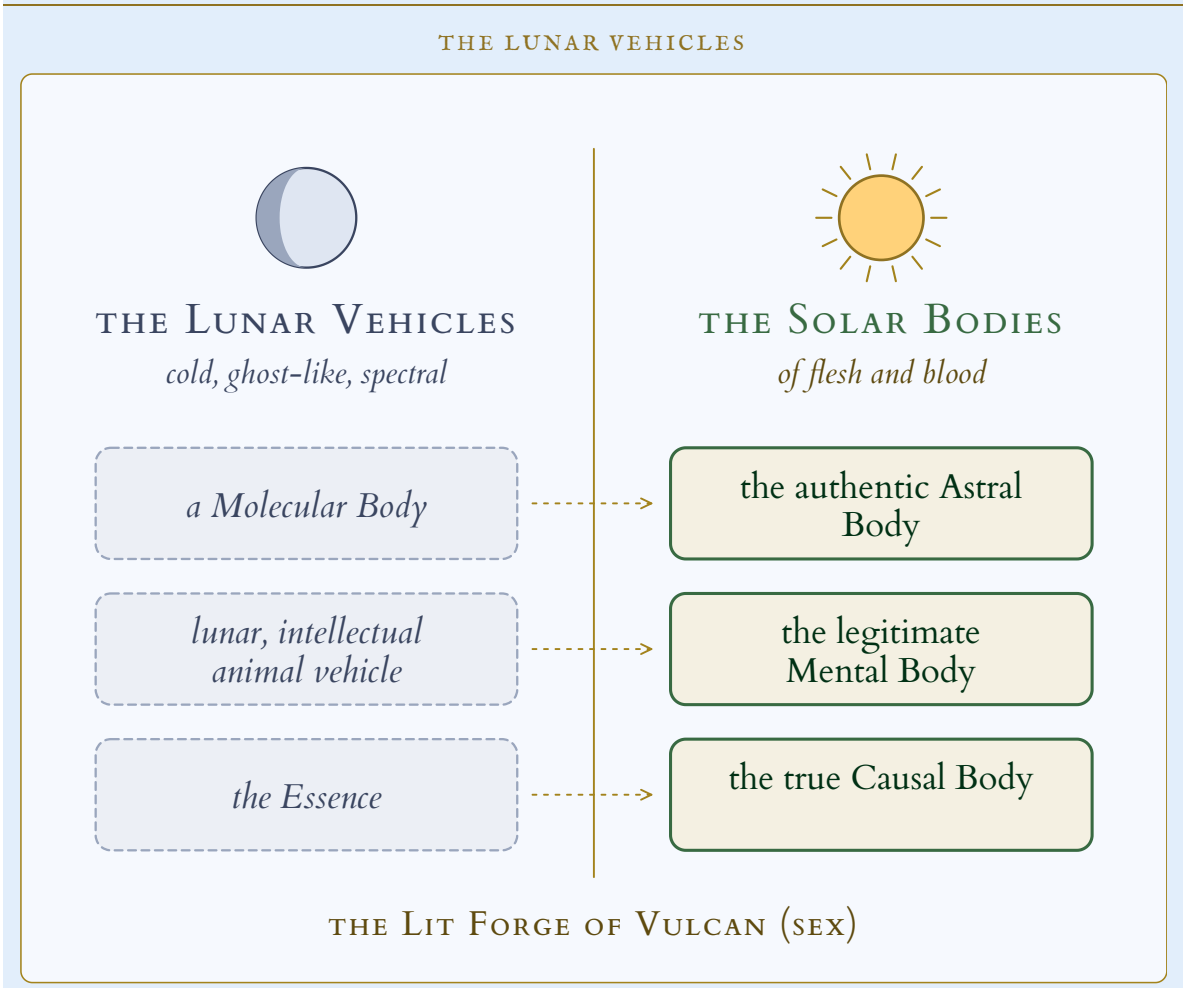

Aquarius is governed by Uranus and this planet controls the sexual glands. It is impossible to attain the Second Birth, Adepthood, Inner Self-Realization, if we do not study the Mysteries of Isis, if we scorn the worship of the Bull Apis, if we do not combine the Red Elixir with the White Elixir within the two Amphoras of Aquarius.

V the four Human Bodies

The four bodies, in Christian and in Theosophical terms. The common man has only lunar copies of them; the Solar Bodies are made in the forge of Vulcan.

Whoever wants to attain the Second Birth should fabricate for himself the Solar Bodies

from Esoteric Treatise of Hermetic Astrology, 1967

In Christian terminology, the four Human Bodies are mentioned. The first is the Flesh Body; the second is the natural Body; the third is the Spiritual Body; the fourth, according to the terminology of an esoteric Christian type, is the Divine Body.

Esoteric Treatise of Hermetic Astrology, 1967

Speaking in Theosophical language, we will say that the first is the Physical Body, the second is the Astral Body, the third is the Mental Body, the fourth is the Causal Body or the Body of Conscious Will.

Esoteric Treatise of Hermetic Astrology, 1967

Our critics will become upset because we do not mention the Lingam Sarira or Vital Body, also known as the Etheric Double. We certainly do not count such a body due to the concrete fact that the latter is merely the superior section of the Physical Body, the fundamental basic center of all physical, chemical, caloric, reproductive, perceptual activities, etc.

Esoteric Treatise of Hermetic Astrology, 1967

The run-of-the-mill Intellectual Animal is not born with the Astral body, neither with the mental body, nor much less with the Causal Body; these bodies can only be artificially cultivated in the Lit Forge of Vulcan (sex).

Esoteric Treatise of Hermetic Astrology, 1967

...it is a luxury, a great luxury that very few can afford

Esoteric Treatise of Hermetic Astrology, 1967

The Astral Body is not an indispensable implement for the Intellectual Animal; it is a luxury, a great luxury that very few can afford; nonetheless, the Intellectual Animal has a Molecular Body, a Body of Desires which is similar to the Astral Body, but is of a Lunar type, cold, ghost-like, spectral.

Esoteric Treatise of Hermetic Astrology, 1967

The Intellectual Animal does not have a Mental Body, but he possesses a subtle, lunar, intellectual animal vehicle, which is very similar to the Mental Body, but of a cold and ghost-like cold nature.

Esoteric Treatise of Hermetic Astrology, 1967

The Intellectual Animal does not possess the Causal Body or the Body of Conscious Will, but he has the Essence, the Buddhata, the Soul Embryo, which is easily confused with the Causal Body.

Esoteric Treatise of Hermetic Astrology, 1967

The subtle Bodies that Leadbeater, Annie Besant, Steiner and many other clairvoyants studied in the poor run-of-the-mill Intellectual Animal, are the Lunar Vehicles. Whoever wants to

attain the Second Birth should fabricate for himself the Solar Bodies, the authentic Astral Body, the legitimate Mental Body, the true Causal Body or Body of Conscious Will.

VI The Solar Bodies are of flesh that does not come from Adam

The Solar Bodies are of flesh and blood and must be fed: each body has its hydrogen and its laws. Only one who has them has the Being incarnated.

Causal Body	**Hydrogen 6** *The vital food*	*six laws*
Mental Body	**Hydrogen 12** *The indispensable food*	*twelve laws*

Physical Body	**Hydrogen 48** *The basic food*	*forty-eight laws*

THE SEXUAL HYDROGEN SI-12

The basic food of the Physical Body is Hydrogen 48.

from Esoteric Treatise of Hermetic Astrology, 1967

There is something that can surprise Gnostic students: the Astral, Mental and causal Bodies are of flesh and blood and after having been born from within the immaculate womb of the Divine Mother, they need to nourish them for their growth and development.

Esoteric Treatise of Hermetic Astrology, 1967

There are two types of flesh: the first is flesh which comes from Adam; the second is flesh that does not come from Adam. The Solar Bodies are of flesh that does not come from Adam.

Esoteric Treatise of Hermetic Astrology, 1967

It is interesting to know that the Sexual Hydrogen Si-12 always crystallizes into flesh and blood. The physical body is of flesh and bones, and the Solar Bodies are also of flesh and blood.

Esoteric Treatise of Hermetic Astrology, 1967

The basic food of the Physical Body is Hydrogen 48. The fundamental food of the Astral Body is Hydrogen 24. The indispensable food of the Mental Body is Hydrogen 12. The vital food of the Causal Body is Hydrogen 6.

Esoteric Treatise of Hermetic Astrology, 1967

Only those who have Solar Bodies have the Being incarnated. Only someone who possesses the Being is an authentic Man.

Esoteric Treatise of Hermetic Astrology, 1967

The Physical Body is controlled by forty-eight laws; the Astral Body is governed by twenty-four laws; the Mental Body is dominated by twelve laws; the Causal Body depends on six laws.

Esoteric Treatise of Hermetic Astrology, 1967

It causes pain to know that many who boast of being Masters and Saints are still garbed with the Lunar Bodies.

Part Four – It is only by means of the "I" dying in a total manner that we attain the Atma Vidya

3 PASSAGES

I The Devas or Angels are True Solar Men

The section on death opens by correcting Count de Gabalis on the elementals. The Angels are men born twice.

PART FOUR

It is only by dying in oneself that we become Perfect Angels.

Count de Gabalis is totally mistaken when he says that the Salamanders, Gnomes, Sylphs, Nymphs, need to become married with a man in order to become immortal.

Esoteric Treatise of Hermetic Astrology, 1967

Count de Gabalis' affirmation is stupid when he says that we need total renunciation to women in order to dedicate ourselves to the immortalization of Sylphs and Nymphs. The Elementals of the Elements, of plants, minerals, animals, will be the men of the future without the need of the unworldly coitus recommended by Count de Gabalis. It is a pity that many mediums of spiritualism are married with Elementals and that many persons cohabit during dreams with Incubi, Succubi and Elementals of every type. The Internal Worlds are full of all kinds of creatures, some good and others bad, others, indifferent.

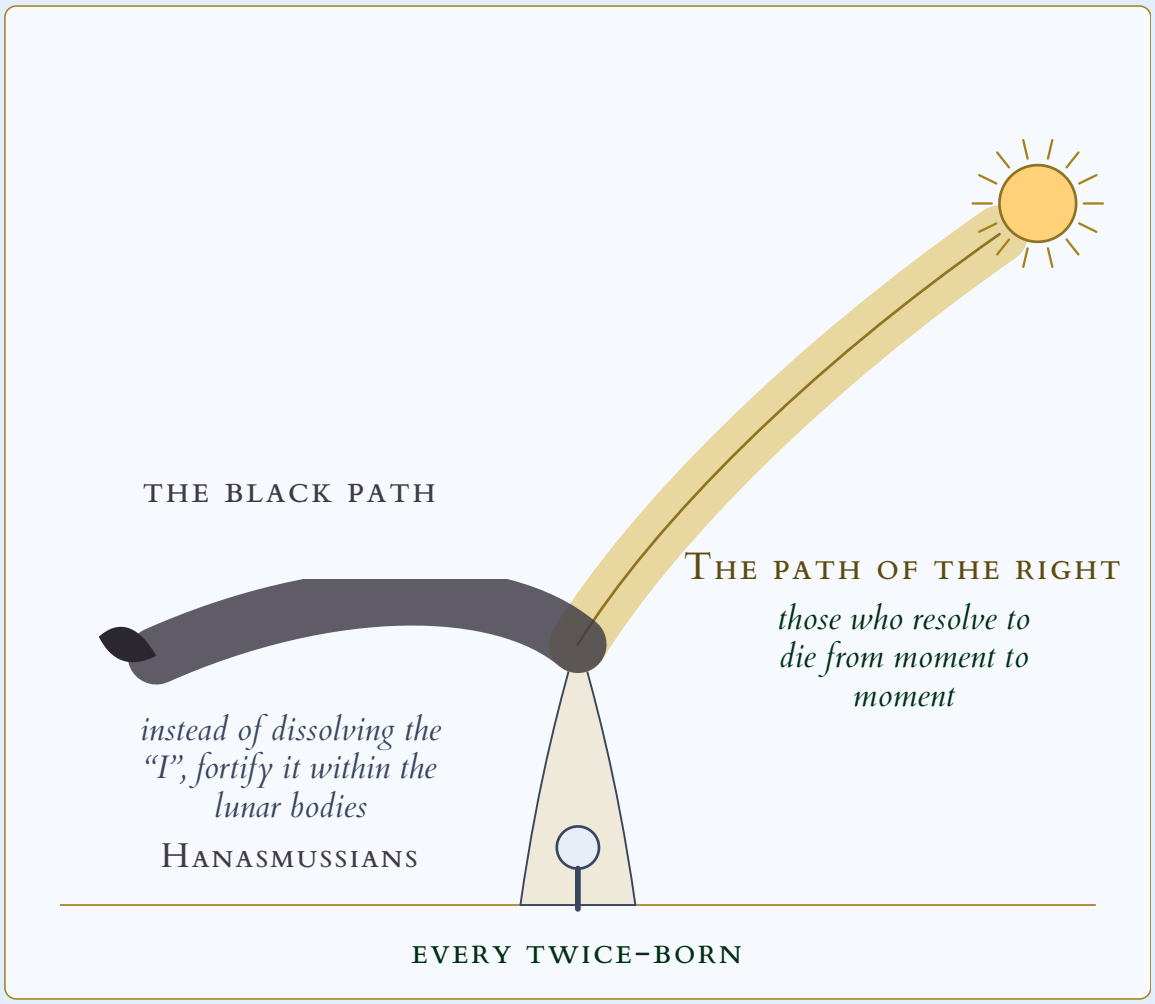

Esoteric Treatise of Hermetic Astrology, 1967

The Devas or Angels, are never inferior to Man. The Devas or Angels are True Solar Men and that is all. The Devas or Angels are twice-born.

Esoteric Treatise of Hermetic Astrology, 1967

II Two paths open up before every twice-born

The Chinese and the Vedas name the invisible inhabitants of the inner worlds, among them the Marut, legions of Hanasmussians with two personalities. Before the twice-born open two paths: dying from moment to moment, or strengthening the I.

Two paths open up before every twice-born, that of the right and that of the left.

from Esoteric Treatise of Hermetic Astrology, 1967

For the Chinese, the two most elevated types of invisible inhabitants are the Thien of a totally celestial nature and the Thi, Thu or intermediaries.

ESOTERIC TREATISE OF HERMETIC ASTROLOGY, 1967

In the narrow passes of Kuen-Lun, the central region of the Earth or Lunar Mountains has placed an entire strange and mysterious world governed by Gods.

Esoteric Treatise of Hermetic Astrology, 1967

Those Divine Beings are the Ko-Han or Lohans, governing gods of millions of creatures. The Third dress in yellow clothes and dwell in crypts or subterranean caverns; they feed on sesame, coriander and other flowers and fruits of the tree of life; they are twice-born, they study alchemy, occult botany, the Philosopher's Stone in the fashion of Master Zanoni and his wise companion, the Great Mejnour.

Esoteric Treatise of Hermetic Astrology, 1967

A third type of invisible inhabitants are the famous Shen or Sham, born here below in the sublunar world, whether it be to work for good, or to pay their old ancestral karma. The fourth type of inhabitants of the internal worlds mentioned by the Chinese, are the tenebrous Maha-Shan, giant sorcerers of black magic.

Esoteric Treatise of Hermetic Astrology, 1967

The most rare and most incomprehensible are the terrible Marut or Turam, beings mentioned by the Rig Veda, legions of Hanasmussians; (this word is pronounced with an H, in this manner: Hanasmussians).

Esoteric Treatise of Hermetic Astrology, 1967

Be careful, we are the temptation that can convert you into an unfaithful.

Esoteric Treatise of Hermetic Astrology, 1967

These legions are constituted by 343 families, although certain calculations raise the number to 823 or 543 families.

Esoteric Treatise of Hermetic Astrology, 1967

It is lamentable that these Hanasmussians are adored by certain Muslims and Brahmins. Hanasmussians have, as we already said in chapter nine of this book, two personalities: one angelic, and another diabolic.

Esoteric Treatise of Hermetic Astrology, 1967

It is clear that the Solar, Angelic Personality of a Hanasmussian, never comes to instruct any candidate to Initiation, without first telling him with total frankness: "Be careful, we are the

temptation that can convert you into an unfaithful."

Esoteric Treatise of Hermetic Astrology, 1967

The Solar Personality of every Marut or Turam, Hanasmussian knows very well that it possesses another lunar, diabolic, tenebrous Personality, which is capable of leading astray the candidate to Initiation.

Esoteric Treatise of Hermetic Astrology, 1967

Two paths open up before every twice-born, that of the right and that of the left.

Esoteric Treatise of Hermetic Astrology, 1967

The path of the right is the path of those who resolve to die from moment to moment, of those who dissolve the "I". That of the left is the black path, the path of those who instead of dying from moment to moment, instead of dissolving the "I", fortify it within the lunar bodies. Those who tread the path of the left, become Marut or Turam, in other words, Hanasmussians.

Three types of Tantrism exist: White, Black and Gray.

from Esoteric Treatise of Hermetic Astrology, 1967

Those who want to attain the Final Liberation, should die from moment to moment. It is only by dying in oneself that we become Perfect Angels.

Esoteric Treatise of Hermetic Astrology, 1967

Three types of Tantrism exist: White, Black and Gray. Maithuna with the ejaculation of the Ens Seminis, is Black. Maithuna with the ejaculation of the Ens Seminis sometimes and sometimes without ejaculation, is Gray.

Esoteric Treatise of Hermetic Astrology, 1967

It is with Maithuna without ejaculation that Devi Kundalini ascends through the spinal canal to develop divine powers and transform us into Angels.

Esoteric Treatise of Hermetic Astrology, 1967

With Maithuna with ejaculation, the Igneous Serpent of our Magical Powers, instead of ascending, descends, precipitates itself from the coccygeal bone towards the atomic infernos of man, becoming the tail of Satan.

Esoteric Treatise of Hermetic Astrology, 1967

Maithuna with ejaculation sometimes and sometimes without ejaculation, is something incoherent, morbid, bestial, which is only useful to fortify the lunar Ego.

Esoteric Treatise of Hermetic Astrology, 1967

IV The lunar Ego is a sum of I's that should be eliminated

The abominable Kundartiguador organ left its consequences in the five cylinders of the machine: thousands of small I's, each taking command in turn.

Black Tantrists develop the abominable Kundartiguador organ. It is necessary to know that said fatal organ is the same tail of Satan.

Esoteric Treatise of Hermetic Astrology, 1967

In times which become lost in the profound night of all ages, the poor Intellectual Animal comprehended his sad situation of being a little machine which is necessary for nature's economy and wished to die; the intervention of certain sacred individuals who committed the error of giving this unfortunate human swarm the abominable Kundartiguador organ, was then necessary.

Esoteric Treatise of Hermetic Astrology, 1967

When the Intellectual Animal forgot his sad situation of being a little machine and fell in love with the beauties of this world, the abominable Kundartiguador organ was eliminated. Unfortunately, the bad consequences of said organ was something, which could not be forgotten; they remained deposited in the five cylinders of the machine. The first cylinder is that of the Intellect and is located in the cerebrum; the second is that of the Emotions and resides in the Solar Plexus, at the level of the navel; the third is that of Movement and resides in the superior part of the spinal column; the fourth is that of the Instincts, and is located in the inferior part of the spinal column; the fifth is that of Sex and resides in the sexual organs.

Esoteric Treatise of Hermetic Astrology, 1967

The evil consequences of the abominable Kundartiguador organ are represented by thousands and millions of small I of an animal-like and perverse nature.

Esoteric Treatise of Hermetic Astrology, 1967

In the Intellectual Animal, there is neither a single command center, nor an "I" or permanent Ego. Each idea, each sentiment, each sensation, each desire, each I desire this, I desire such and such a thing, I Love, I do not love, is a different I.

Esoteric Treatise of Hermetic Astrology, 1967

...true individuality does not exist in the poor Intellectual Animal.

Esoteric Treatise of Hermetic Astrology, 1967

All these small and quarrelsome I argue among themselves, they fight for supremacy, they are not connected among themselves, nor coordinated in any way whatsoever. Each of these small I's depends on the changes of the circumstances of life and on the changes of impressions.

Esoteric Treatise of Hermetic Astrology, 1967

Each small "I" has its own ideas, its own criteria; true individuality does not exist in the poor Intellectual Animal. His concept, actions, ideas, depend on the "I" which dominates the situation in those moments.

Esoteric Treatise of Hermetic Astrology, 1967

When an "I" becomes enthusiastic with Gnosis, it swears eternal loyalty to our Gnostic Movement; this enthusiasm lasts until another "I" which is against these studies, takes over power. We then see with astonishment that the subject leaves and even becomes our enemy.

Esoteric Treatise of Hermetic Astrology, 1967

The "I" which, today swears eternal love to a woman, is later displaced by another "I" which has nothing to do with the promise and then the woman suffers deception.

Esoteric Treatise of Hermetic Astrology, 1967

Such an "I" automatically follows another "I" and some appear to always be accompanied by others, but there is not any order or system among all of those I's. Each of those I's believes itself to be everything at a given moment, but it is really nothing but the worst part of our functions, even when it has the impression of being the totality, the reality, the complete man.

Esoteric Treatise of Hermetic Astrology, 1967

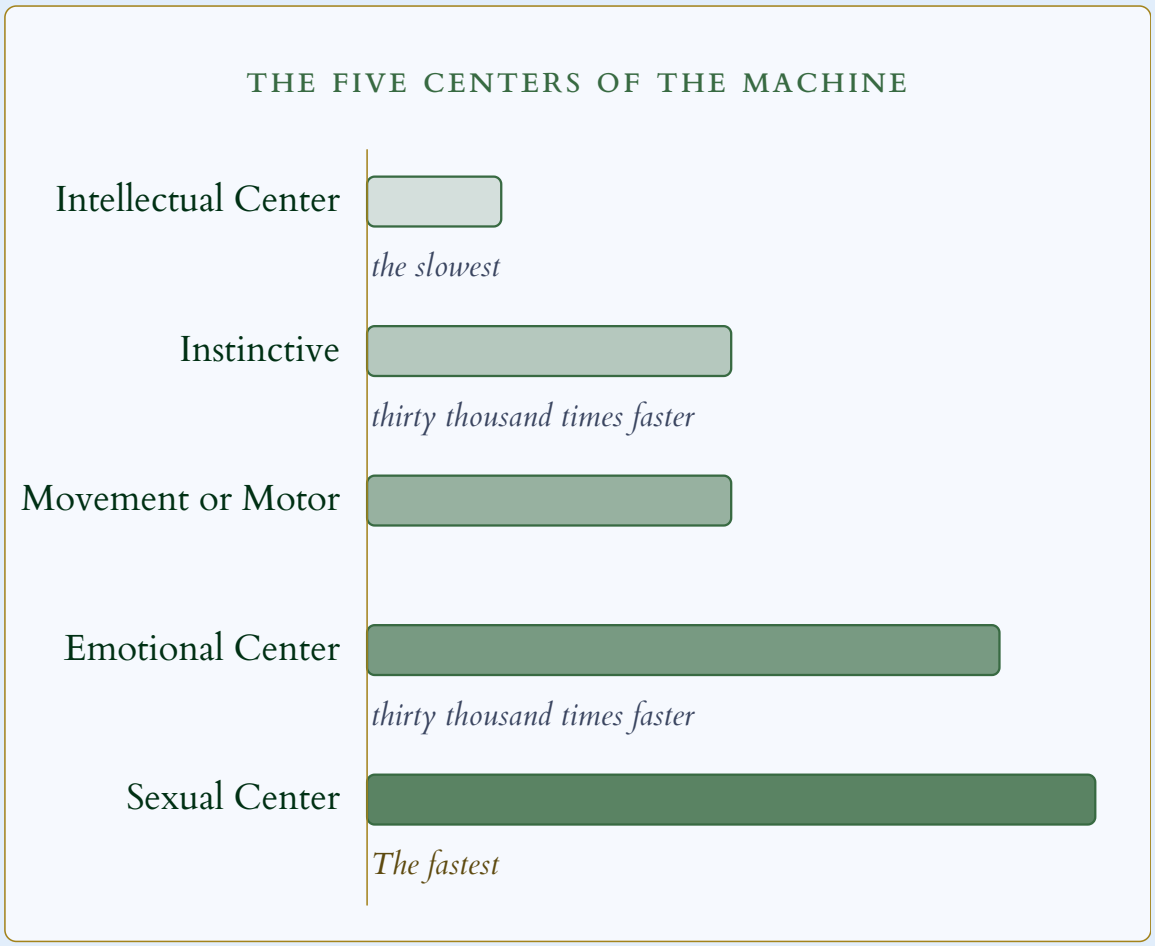

The interesting thing is that we give credit to the "I" of a moment, even when that "I" is displaced by another "I" moments later. The lunar Ego is a sum of I's that should be eliminated in a radical manner.

Esoteric Treatise of Hermetic Astrology, 1967

V Differences in velocity exist among the five centers of the machine

Each of the five centres has its own speed and its two halves. By observing ourselves we find the I in each centre and in its forty-nine regions, and comprehend it before eliminating it.

from Esoteric Treatise of Hermetic Astrology, 1967

from Esoteric Treatise of Hermetic Astrology, 1967

It is necessary to know that each of the five cylinders of the machine possesses its own characteristics that we should never confuse.

Esoteric Treatise of Hermetic Astrology, 1967

Differences in velocity exist among the five centers of the machine.

Esoteric Treatise of Hermetic Astrology, 1967

People lavishly praise thinking, but in reality of truth, the Intellectual Center is the slowest. Afterwards, operating much faster, follow the Instinctive and Movement or Motor Centers,

which have more or less the same velocity. The fastest is the Sexual Center, and is followed in order of speed, by the Emotional Center.

Esoteric Treatise of Hermetic Astrology, 1967

There is an enormous difference in speed between each of the five centers of the machine.

Esoteric Treatise of Hermetic Astrology, 1967

By studying ourselves, by observing ourselves, we will see at a simple glance that movement is faster than thought and that emotion is faster than any movement and thought.

Esoteric Treatise of Hermetic Astrology, 1967

The Motor and Instinctive Centers are thirty thousand times faster than the Intellectual Center. The Emotional Center, when it works at the velocity that is its own, is thirty thousand times faster than the Motor and Instinctive Centers.

Esoteric Treatise of Hermetic Astrology, 1967

The different centers each have their own completely different rhythm. The velocity of the centers explains a great number of well known phenomena which run-of-the-mill ordinary science cannot explain; it is enough to remember the astonishing speed of certain psychological, physiological and mental processes.

Esoteric Treatise of Hermetic Astrology, 1967

Every center is divided into two parts: positive and negative; this division is particularly clear for the Intellectual Center and the Instinctive Center.

Esoteric Treatise of Hermetic Astrology, 1967

The entire work of the Intellectual Center is divided into two parts: Affirmation and Negation, Yes and No, Thesis and Antithesis.

Esoteric Treatise of Hermetic Astrology, 1967

The same struggle between pleasant and unpleasant exists in the Instinctive Center; pleasant sensations, unpleasant sensations and all of those sensations are related with the five senses: sight, hearing, smell, taste and touch.

Esoteric Treatise of Hermetic Astrology, 1967

...we will see at a simple glance that movement is faster than thought and that emotion is faster than any movement and thought.

Esoteric Treatise of Hermetic Astrology, 1967

The struggle between movement and rest exists in the Movement or Motor Center.

Esoteric Treatise of Hermetic Astrology, 1967

Pleasant and unpleasant emotions exist in the Emotional Center: happiness, sympathy, affection, self-confidence, etc. are positive.

Esoteric Treatise of Hermetic Astrology, 1967

Unpleasant emotions such as boredom, jealousies, envy, anger, irritability, fear, are totally negative.

Esoteric Treatise of Hermetic Astrology, 1967

In the Sexual Center, attraction and repulsion, chastity and lust, exist in eternal conflict. The Intellectual Animal sacrifices his pleasures if necessary, but he is incapable of sacrificing his own sufferings.

Esoteric Treatise of Hermetic Astrology, 1967

Whoever wants to dissolve the Pluralized I, should sacrifice his own sufferings. Jealousies produce suffering; if we annihilate jealousy, the suffering dies, pain is sacrificed.

Esoteric Treatise of Hermetic Astrology, 1967

Anger produces pain; if we put an end to anger, we sacrifice the pain, we destroy it. It is necessary to observe ourselves from moment to moment; the pluralized "I" works in each of the five centers of the machine. Sometimes it is an "I" of the Emotional Center which is the one that reacts angrily, or is jealous, or envious; sometimes the prejudices and calumnies of the Intellectual Center violently attack with all their fury; other times, the erroneous perverse habits lead us to failure, etc., etc., etc.

Esoteric Treatise of Hermetic Astrology, 1967

Each center has forty-nine subconscious regions and in each of those regions live millions of I that we need to discover through in-depth Meditation.

Esoteric Treatise of Hermetic Astrology, 1967

When we auto-discover ourselves, when we become conscious of the activities of the I in the five centers of the machine and in the forty-nine subconscious regions, we then awaken consciousness.

Esoteric Treatise of Hermetic Astrology, 1967

To become conscious of the entire process of the "I" in the five cylinders of the machine, is to make the subconscious conscious.

Esoteric Treatise of Hermetic Astrology, 1967

It is impossible to eliminate the different I's if we have not previously comprehended them consciously in the forty-nine subconscious regions.

VII The third factor for the Revolution of Consciousness is Sacrifice

The third factor is sacrifice for humanity, of the sattwic kind, wanting nothing in return. It leads to the Venusian Initiation, the incarnation of the Christ in man.

Sattwic Sacrifice is done in accordance with the Divine Commandments, concentrating on the worship, only for the worship, by men who do not desire results.

Esoteric Treatise of Hermetic Astrology, 1967

Esoteric Treatise of Hermetic Astrology, 1967

Tamasic Sacrifice is always done against the commandments, without faith, without the Mantrams, without charity towards anyone, without love for humanity, without offering the sacred offering to the Priests or Gurus, etc., etc., etc.

Esoteric Treatise of Hermetic Astrology, 1967

The third factor for the Revolution of Consciousness is Sacrifice, but Sattwic Sacrifice, without desiring the fruits of action, without desiring reward; pure, sincere, disinterested sacrifice, giving one's Life in order for others to live and without asking for anything as reward.

Uranus and Saturn are the planets that govern the constellation of Aquarius. Uranus is totally revolutionary and it is clear that reactionary, conservative, regressive and retardatory persons cannot understand it.

ESOTERIC TREATISE OF HERMETIC ASTROLOGY, 1967

We already know that Aquarius is ruled by Saturn and Uranus and that it is completely revolutionary. Saturn is allegorized in Alchemy by the black raven, the return to the primeval, original chaos. As for Uranus, it is demonstrated perfectly that it is a hundred percent rebellious, revolutionary, catastrophic.

Uranus, regent of Aquarius, governs the sexual glands. Its name, Ur-Anas, is the primordial fire and water, and the new era it rules is the age of sex.

URANUS, UR-ANAS

Uranus reminds us of UR-ANAS, the Primordial Fire and Water.

from The Solar Bodies, 1968

The human being must learn to live sexually. The age of sex, the New Era of Aquarius has arrived. The planet Uranus controls the sexual glands, and is the regent of the constellation of Aquarius. Thus, Sexual Alchemy is in fact the science of the New Age of Aquarius. Sexual Magic will be officially accepted in the universities of the New Aquarian Era. Those who presume themselves to be messengers of the New Age of Aquarius, and yet hate the Arcanum A.Z.F., prove to the utmost that they are really imposters, because the New Aquarian Era is governed by the regent of sex. This regent is the planet Uranus.

The Perfect Matrimony, 1966

Human life in itself has no meaning. To be born, to grow, to work hard to live, to reproduce like an animal and then to die; this is really a chain of torments which man carries entangled in the Soul. If this is life then it is not worth living. Fortunately we carry in our sexual gland seed, the grain. From this seed, from the grain, the Superman can be born, the Adam Christ, the Golden Child of Sexual Alchemy. For this, life is worth living. The path is sexual transmutation. This is the science of Uranus. This is the planet, which controls the gonads or sexual glands. This is the planet, which governs the constellation of Aquarius.

The Perfect Matrimony, 1966

An in-depth study of the Sexual Glands shows us that these Glands are governed by Uranus, the Planet of Aquarius. The Sexual Glands have a dual function, because not only do they have external secretion but also internal secretion.

The Solar Bodies, 1968

Fortunately we carry in our sexual gland seed, the grain.

The Perfect Matrimony, 1966

It is very interesting that the Sexual Gonads are esoterically governed by Uranus, the Planet of Aquarius. Uranus was a Divine King from primeval Atlantis. Uranus reminds us of UR-ANAS, the Primordial Fire and Water. This is equivalent to the establishment of the First Luni-Solar Cult of the Androgynous "IO" in other words, the apparition of the Astrological Chaldean; therefore, Uranus, the Asura-Maya, the First Atlantean, is factually the first revealer of Sexual Mysteries.

The Solar Bodies, 1968

This unusual task can, therefore, be identified with Aquarius, zodiacal house of Uranus, Ur-Anas, the primordial Fire and Water, clearly symbolising the sexual currents in the human organism.

The Three Mountains, 1972

In fact, Uranus was the absolute king of the sexual functions, the leader of the New Aquarian Age.

from Parsifal Unveiled, 1970

Sex itself should be the most elevated and creative function. Unfortunately, ignorance reigns supreme, and humanity is very far from understanding the great mysteries of sex. If we study the book of the heavens, the marvelous zodiac, we will understand that the zodiacal sign of Aquarius governs the new Age of Aquarius. The symbol of Aquarius is the water carrier, a woman trying to intelligently mix the waters in the two buckets she carries. This symbol reminds us of sexual alchemy.

The Buddha's Necklace, 1967

In Pisces, people were mere slaves to their sexual instincts, symbolized by two fish in the waters of life; however, in Aquarius, people must learn to intelligently combine the waters of existence and to transmute the sexual forces.

The Buddha's Necklace, 1967

Uranus, the planet, which also governs the sexual functions, governs Aquarius. It seems incongruous and absurd that some isolated individuals and certain pseudo-esoteric schools

reject the Maithuna (Sexual Magic), but nevertheless, have pretensions about initiating the New Age.

The Buddha's Necklace, 1967

Rejecting the Maithuna (Sexual Magic) means, in fact, pronouncing oneself against the sign of Aquarius, governed by Uranus, King of Sex.

The Buddha's Necklace, 1967

Uranus is one hundred percent sexual, and in the new era governed by this planet, human beings should know, in depth, the mysteries of sex. Rejecting the Maithuna (Sexual Magic) means, in fact, pronouncing oneself against the sign of Aquarius, governed by Uranus, King of Sex.

The Buddha's Necklace, 1967

Runic Magic, 1969

It is important to know with complete clarity that from such spermatic, genesis or lacustrine static waters comes the splendid substantial hieroglyphic of the eternal zero... It is urgent to comprehend that from the dynamic or fecundating waters of the boisterous river, emerges as if by enchantment, the double line of Aquarius, that is the initial hieroglyphic of the letter M, with which everywhere the eternal feminine element is designed: Mother, Mater, Mama, Mary, Maya, Mer.

Parsifal Unveiled, 1970

I the New Age of Aquarius which will begin on the 4th of February, 1962

PART SIX

The era of Aquarius has arrived, and a new lineage reigns

On the 4th of February of 1962, between two and three o-clock in the afternoon, the Aquarian Age began.

from Christmas Messages, 1952–66

from The Greater Mysteries, 1956

Much has been said about the New Age of Aquarius which will begin on the 4th of February, 1962, between two and three in the afternoon. Some assume that the new age has already begun, but this assumption is false. The new era shall begin on the 4th of February 1962.

CHRISTMAS MESSAGES, 1952-66

The seven ruling Genii of the seven planets, the moon, mercury, sun, mars, jupiter, venus and Saturn shall meet at a cosmic congress at the aforementioned hour. There will be a solar and lunar eclipse at that hour, visible in some places of the Old World. This event will be a type of celestial traffic jam in the Constellation of Aquarius. Thus, the new era shall begin with such an

event. The concrete cosmic facts are what speak; the cosmic event of the 4th of February 1962 is only repeated every two thousand one hundred and sixty years in a particular constellation, each time that a new era begins.

Christmas Messages, 1952-66

Thus, 1962 will be the first year of Aquarius. All the brothers of the Gnostic Movement should date their letters according to the new era. The cosmic event of 1962 will produce many catastrophes in different parts of the world.

Christmas Messages, 1952-66

In the year 2,500, there will be stations of interplanetary ships in the large cities. On the 4th of February of 1962, between two and three o-clock in the afternoon, the Aquarian Age began.

Thus, 1962 will be the first year of Aquarius.

Christmas Messages, 1952-66

The Aquarian Message, 1960

It is appropriate to cite now among the grandeurs of this poor pygmy of a humanity, that date and hour---February 4th, 1962, between 2 and 3 P.M.---in which all the planets of our solar system got together in a supreme cosmic council, precisely in the brilliant constellation of Aquarius, to initiate the new Era surrounded by the august thundering of thought.

The Three Mountains, 1972

In the year 1962 the New Era of Aquarius will commence. The New Era will signify the Advent of the Christ, and the fall of that great Babylon… the death of this perverse race and a frightful cataclysm.

Mountain of Juratena

Pay the maximum of attention. First of all, it is necessary to know that since 1962, on February 4, between two and three in the afternoon, the Age of Aquarius, the Water Bearer began. There was an event that you will keep in your memories. I refer to that assembly of worlds, of

planets, that were found, precisely, in the constellation of the Water Bearer. It was truly a celestial traffic jam, a meeting of worlds. There was an eclipse of the Sun and the Moon.

III the earth entered a new era of spiritual awakening

In the Zodiacal Course he traces the forces that prepared the new consciousness of Aquarius: the Buddhic-Martian forces since the seventeenth century, and the shock that marked the monk Norbert.

Since the seventeenth century, the earth entered a new era of spiritual awakening. That awakening will shine in all its splendor in the sign of Aquarius, the present era. The cause of that awakening is due to the influence of the great enlightened "Buddha" who in the seventeenth century became the redeemer of the Martian humanity, was crucified in the forces of Mars, to redeem the Martians and help our terrestrial humanity with "BuddhicMartian" forces that radiate from Mars.

Zodiacal Course, 1951

At the beginning of the twelfth century, a monk named Norbert founded an order of religious character in Europe. Before that idea occurred to that man, he was a worldly man dedicated exclusively to vices and pleasures. On a certain day, he was struck by lightning, and although he was not killed, his entire being was totally transformed. This event did not occur by coincidence nor by chance. It was a cosmic event provoked by the Gods, since this man was predestined to mark the Karma of the worlds, performing a new task, and initiating a new cultural era of the conscience. All the fluid links between the physical and astral, and mental bodies of that man remained totally modified by the "shock" of the force contained in that ray, and that external shock marked the new consciousness which would reach its splendor in Aquarius.

VI Aquarius is the house of friends

What changes in the new era: the temple is within, the age is for practical occultists, there are neither rich nor poor, and the yogis live in the cities among people. The many old postures and mudras are no longer needed.

In this way every home can become a Gnostic Temple, and the head of the family a priest. No more Lodges, no more schools, no more sects, no more infamy, no more exploitation! The temple is inside us, and the Supreme Priest is Christ. Aquarius, the age of light, is coming. Down with the chains! He does not want slaves.

Secret Notes of a Guru, *1952*

In the age of Aquarius, every human being will know how to enter and leave the body at will. The tenebrous ones oppose the great law in order to enslave souls within their intellectual systems.

The Greater Mysteries, *1956*

People are tired of studying and finally want to know, see, hear and touch for themselves. The new Aquarian Age is for practical occultists; it is necessary for you to learn how to go out in the astral body at will and to travel with the physical body in the Jinas state, to fly with the body of flesh and blood, to enter the internal worlds, to visit the souls of the dead, to enter the world of the Angels with the physical body; all of this is certainly a gigantic victory of the Spirit.

The Greater Mysteries, *1956*

The instructors should not be called masters, but "friends" instead. Only the Inner Christ is Master. The Gnostic Movement is impersonal and made up by humble laborers. Let us reject all personalism; let us not accept bossy persons; no one is more than anyone else. Among us, we are all laborers, bricklayers, mechanics, farmers, writers, doctors, etc. Idolatry of the golden calf will now remain abolished in the Aquarian Age and we reject it in the Gnostic Movement. A God of the Fire told us: "In the Aquarian Age, capital will be decapitated;" that great being dwells in the igneous stratum of the earth. There will be no intellectuals in the new era; they are dangerous because of their barbarism and perversity; avoid interacting with them. In the new era, there will be no rich or poor persons, but rather, only worthy and decent laborers of the Great Work, that is all. We do not accept nobility titles, nor high-sounding titles such as doctor, lawyer, guru, Master, elder brother, avatar, etc. among us. We are all friends; Aquarius is the house of friends.

The Greater Mysteries, *1956*

The Mysteries of Fire, *1955*

Editor's note. In his later teaching the Master makes this plain: pranayama, mantras and chastity purify the channels and sublimate the sexual energy, and single people should practise them, but the Kundalini itself awakens only through the sexual work of the couple (Maithuna). VIII This is the doctrine of the Aquarian Age

Sexual magic is the doctrine of the age, delivered publicly to begin it, and Uranus, who rules it, governs the sexual glands. Any school that does not teach the Sahaja-Maithuna is not Aquarian, and there are no longer taboos.

The hour of the victory of the martyrs is now drawing near. The people of God will overcome and Christ will be the King of Aquarius. It is urgent for men to learn to realise the miracle of the wedding of Cana in their own houses. It is necessary to transmute, in weddings, the water into wine. It is necessary to learn to enjoy love with wisdom. It is necessary to learn to subdue bestial passion. It is necessary to kill the animal ego. There are many ignorant people who believe it is impossible to realise the miracle of Cana within themselves. Don't forget, brothers, that wise nature placed her two ganglionic cords within your spinal medulla; through these fine channels the sexual energy ascends to the brain. These two cords are our Two Witnesses: "These have power to shut Heaven, that it rain not in the days of their prophecy: and have power over waters to turn them to blood, and to smite the earth with all plagues, as often as they will.

The very word "sacrosanct" is derived from sacral and is thus of phallic origin. The phallic cult is terribly divine. The phallic cult is scientifically transcendental and profoundly philosophical. The Era of Aquarius is already approaching and then even laboratories will discover the energetic and mystical principles of the phallus and uterus. The sexual glands are governed by Uranus, and enclose terrible forces that laboratory science will discover in the new era. The scientific value of the ancient phallic cults will then be publicly recognised.

1 The New Aquarian Age is a birth of nature and every birth is painful

Nature gives birth to the new age, and the birth is painful: before it begins the nations pay their karmic debts, and east and west go to war.

PART SEVEN

Aquarius brings terrible cataclysms.

Thus, the Revolution of Beelzebub is marching on. Everywhere the oppressed are rising against the oppressors and everywhere are wars and rumors of wars. What is already agonizingly old is holding onto life, while what is new wants to be born and live. The Revolution of Beelzebub is in march. The age of Aquarius is reigning and the storm of exclusivity has been unleashed with all of its fury. Parties are struggling against other parties, religions against religions, nations thrust themselves to war and each hand is risen against other hands. Everything, which is obsolete, everything which is old fights to survive, while the new wants to impose itself.

THE REVOLUTION OF BEELZEBUB, 1950

All this proves the horrible failure of our terrestrial evolution. Human evolution has failed. Armed armies can be seen everywhere. Fire and sword will destroy this corrupt civilisation. Our Lord the Christ said it clearly in the following verses: “But when you see Jerusalem surrounded by armies, then know that its desolation has come near. Then let those who are in Judea flee to those mountains, and let not those who are inside the city depart, and let not those

that are out in the country enter it; for these are days of vengeance, to fulfil all that it is written." (Luke 21:20-22). Before long the third world war will start, and fire and sword will destroy the present civilisation. The whole Earth will become a gigantic graveyard where only crosses will be seen, and crosses, and more crosses… And we shall plant the flag of Aquarius on the smoking ruins of this huge graveyard…

Christmas Messages, *1952-66*

Currently the east and west are preparing for battle. Spain will undergo a total transformation. The East will emerge victorious. Europe will come under Soviet control. Later, in America, there will be a confederation of states. By 2018, even simple flashlights will be atomic. By the year 2500 there will be stations for interplanetary spacecraft in all cities. People will come from planets in other solar systems and will teach men to build cosmic ships. Then, in Aquarius, humanity can visit every planet in the solar system. That will be an extra help to be given to this terrestrial humanity.

Christmas Messages, *1952-66*

Before the new Aquarian Age begins, all nations will have to pay their great karmic debts; there will be war between East and West for the good of humanity; this is what Lord Jehovah says. We know that the Orient will win the war.

The Greater Mysteries, *1956*

“In the Aquarian Age, capital will be decapitated;” “The United States will be punished;” so it is written in the Law. The Vatican will be bombarded and destroyed by blood and fire. Soon, it will pay its horrible debts. Spain will become transformed; all of Europe will become totally sovietized. The Americas will form a great confederation during the sign of Aquarius. They shall fight by land, sea and air, even in the poles; the Orient will win. In the year 2,018, even flashlights or portable lamps will be atomic.

II Aquarius brings terrible cataclysms

Aquarius governs the atmosphere, and the age brings cataclysms: atomic war, the collision of worlds, and the planet Hercolubus at the end of the solar system's round of the zodiac.

JOURNEY AROUND THE ZODIAC

So, the journey is ending and Hercolubus is again in sight of the observatories of the entire world.

from The Fifth Gospel

In the Aquarian Age, devices to see egos which have disembodied will be invented. There shall be a collision of the magnetic fields of worlds; our earth's magnetic field will collide against that of another planet. This event will put an end to our Aryan race. The entire earth will then go through a total and definite transformation. The select, the chosen, will be secretly saved and they shall serve as seeds for the sixth race.

Christmas Messages, 1952-66

Atomic wars fought to death will take place in the Aquarian Age. The Third World War will be a fact. The result of all these wars will be terrible; horrible earthquakes, seaquakes, unknown illnesses, hunger, misery, etc.

Christmas Messages, 1952-66

Very soon, man will conquer the moon. It is necessary to know that man will reach other planets with his rockets. It is urgent to comprehend that when the man of Aquarius manages to arm a powerful fleet of cosmic ships to violently invade other planets in space, then on that day all the prophecies of all those who incarnated the Cosmic Christ in substance, shall be fulfilled. That shall be the day of the collision of worlds. The mountains will turn to dust, will fly through the air, and all that has life shall perish by fire.

Christmas Messages, 1952-66

The earth will experience a process of planetary disintegration and reintegration. Aquarius brings terrible cataclysms.

The Aquarian Message, 1960

A world is approaching, it is approaching the planet Earth. Woe to the dwellers of the Earth! The Day of the Lord (the new Aquarian Age) is at hand. This world which is approaching will pass through the atmosphere and will burn with living fire. Therefore, when falling upon the earth, the elements and all things with life therein shall melt with fervent heat.

The Aquarian Message, 1960

The prince of this world is that "I", that Ego, that Myself which all of us carry within. This "I", with its fatal mind, supposes that the Aquarian Age will be a comfortable age without any type of problems and full of great securities, since the prince of this world is a distinguished lord of commodities!

The Aquarian Message, 1960

The times of the end have arrived.

The Aquarian Message, 1960

Woe to the dwellers of the earth, the Age of Aquarius is approaching, and the ray of justice will fall upon "BABYLON THE GREAT, THE MOTHER OF HARLOTS AND ABOMINATIONS OF THE EARTH."

The Aquarian Message, 1960

AQUARIUS has influence over the terrestrial atmosphere, and Peter the chief of the Apostolic College said: "But the Day of the Lord will come as a thief in the night; in which the heavens shall pass away with great noise, and the elements shall melt with fervent heat, the earth also and the works that are therein shall be burned up." (Second Epistle of Peter 3:10)

The Aquarian Message, 1960

Aquarius signifies the end for this Great Babylon. The times of the end have arrived. The second coming of Christ signifies total revolution upon the face of the earth.

The Aquarian Message, 1960

This earth which is inhabited by the Arian Root Race will be destroyed by the fire of Aquarius.

The Aquarian Message, 1960

The whole of this will be accomplished in the present Aquarian Age. Nonetheless, before the Great Cataclysm, you will see very frightful events. The Vatican will be destroyed, the great cities of the world will become ashes, blood and ruins, money will become worthless and human beings will kill each other just for a piece of bread.

The Aquarian Message, 1960

The harsh reality of the facts is that such planet has an orbit with more years. That planet came during Lemuria and provoked great earthquakes and volcanic eruptions on that continent. That same planet came at the end of the Atlantean era and put an end to Atlantis. And now it comes at the end of our Aryan Race, and it will put an end to the Aryan Race. It works in coordination with the sidereal day, so our solar system travels around the entire Zodiac in the space of about 25,968 years. In these precise moments, the journey is ending, because this journey began after the Universal Flood in the constellation of Aquarius, and the solar system has returned again to the constellation of Aquarius. So, the journey is ending and Hercolubus is again in sight of the observatories of the entire world. Hercolubus will not attract the wicked to its subterranean or submerged regions; that concept –I repeat– is wrong. Hercolubus will produce the total revolution of the Earth's axes –that is indeed true– and, as a sequence or corollary, all of humanity will be devoured by water. First, the fire will "have a field day", first everything that has life will be burnt, and then the water will complete the destructive work. That is the harsh reality. In the Infernal Worlds of our planet Earth, the lost ones will involute.

The Fifth Gospel ·The Verticality of Existence ·*First Gnostic Youth Encounter – Guadalajara, Jalisco, Mexico – July 10. 1975*

Now, again, such planet comes on a journey, and it comes in moments when our journey around the Zodiac has finished. I say so because only a few degrees are left before the total end. This journey we are on began in the Age of Aquarius and the solar system has returned once

again to the sign of Aquarius, that is, the journey has been completed. Only a few degrees are left to be, exactly, at the end of the journey, and those few degrees imply only a few years.

The Fifth Gospel · Transcendental Exhortation Addressed to the Missionaries

III not all humans will live with a physical body in Aquarius

Only a chosen few reincarnate in the age of light. Those separated from their inner being sink into the abyss and wait until the luminous cycles of Aquarius have passed.

Today, the times have changed: we are beginning the New Aquarian Age and we have to isolate from this terrestrial globe those personalities that are already separated from their divine triads to cleanse the atmosphere of all evil. That is all, if this is reason for mockery on the part of lecture-hall spiritualists and occasional readers, whose fault is it? When the bridge called "Antakarana", which communicates the divine triad with his "inferior I" is broken, then the inferior I is left separated and is sunk in the abyss of destructive forces, where it disintegrates little by little. This is the second death of which the Apocalypse talks to us about; that is, the state of consciousness called "Avitchi". In these cases, the divine triad (Atman-Buddhi-Manas) is clothed with a new mental and astral body to continue its evolution, and the discarded personality is submerged in the state of "Avitchi", into the most inexpressible suffering.

Zodiacal Course, 1951

The new Era is the offspring of nature, and every birth is painful. In Aquarius only a select group of souls will be able to have a physical body; and there will be light, and wisdom and beauty; this is the first resurrection, because the second one will take place in Sagittarius.

Secret Notes of a Guru, 1952

The number of a 'thousand years' is decomposed caballistically as follows: 1+0+0+0=1; that is, one period; this period lasts 2000 years. During these two thousand years of Aquarius, the selected humans will be priests of God and Christ, and will reign with him during the whole of Aquarius. The borders will disappear, and the whole Earth will be a single fatherland of love and fraternity.

Secret Notes of a Guru, 1952

In the distance the first tolls of the bell of the resurrection of Aquarius are now being heard! The Christmas pine trees are full of glory. Those who are not prepared will be removed from this evolutive wave until the luminous cycles of Aquarius have passed. We are separating the sheep from the goats.

Christmas Messages, 1952-66

I give to you the Ark of the Testament so that, as in the days of Noah, you can save yourselves from the Great Cataclysm. Only God's people will be able to live in Aquarius.

Christmas Messages, 1952-66

Only a tiny handful of souls will reincarnate in the new Aquarian Age.

Igneous Rose, 1954

Gnostic brothers and sisters, know that not all humans will live with a physical body in Aquarius. The Great White Lodge is at this moment selecting people. The souls who have the mark of the beast on their forehead and hands can not reincorporate in the Age of Aquarius. It would be impossible to create light in an age of evil. We must carefully select people.

Christmas Messages, 1952-66

253. It is sad, very sad indeed to say the truth, but this human evolution has truly failed. 254. A very small group of souls will reincarnate in the luminous age of Aquarius. 255. I know the pseudo-theoretical spiritualists of the world very well; and with anticipation, I know that they will laugh at my affirmation and believe that I am ignorant... Poor people... I know all their theories by memory. I know all their libraries and I can asseverate that a large part of the spiritualists of these societies, classrooms, orders, etc., walk on the black path.

Igneous Rose, 1954

48. Only a tiny handful of souls will reincarnate in the new Aquarian Age.

Igneous Rose, 1954

49. Millions of human souls, separated from the Intimate, are now sinking into the tenebrous abyss and they will not reincarnate during the new Aquarian Age.

Igneous Rose, 1954

29. Only the Intimates that have not lost their personalities will reincarnate in the Age of Aquarius.

Igneous Rose, 1954

30. The others, the failures, must wait in the internal worlds until the luminous Age of Aquarius passes through. The last opportunity will be given to these personalities in the Age of Capricorn.

Igneous Rose, 1954

IV Jesus Christ will return at the zenith of Aquarius

Christ will come at the height of Aquarius with his resurrected body, and many will incarnate him in the age of Christ.

When Christ comes in the Age of Aquarius, he shall be born as a man amongst men, and he will dress and look according to the fashion of the times.

Secret Notes of a Guru, 1952

The coming of "Christ" is necessary so that he explains and clarifies to us in detail the doctrine that he taught us and that every religious sect has totally misrepresented. When he comes, there will be no more villains, since all the villains of these times will have already fallen in the abyss. Christ will come in the Aquarius, and then there will be on earth only good people.

Secret Notes of a Guru, 1952

It is certainly true that Jesus Christ rose from the dead on the third day and lives in eastern Tibet-Shambala. He lives there with his same resurrected physical body. There He has his temple and He will come to fulfill a great mission during the height of Aquarius. When the Sun enters the constellation of Capricorn (the Age of the Holy Spirit) the souls of darkness will be given a final opportunity in the flesh and bone to define themselves for the White Lodge of Christ or the Black Lodge of Yahweh.

Christmas Messages, 1952-66

Jesus incarnated his I Am. Before Jesus, there were some who incarnated Him; after Jesus there were few who incarnated Him and in the future Age of Aquarius there will be many who will incarnate Him. Aquarius is the age of Christ, those who embody Him, Him, Him. He is the only way of salvation.

Christmas Messages, 1952-66

422. However, in the Age of Aquarius, the Christic Triad will reincarnate in an integral form in order to teach christic esoterism to humanity.

Igneous Rose, 1954

423. The Gnostic movement will then give its fruits, and the entire Aquarian humanity will be prepared to understand the last explanations of the Master.

Igneous Rose, 1954

Jesus Christ will return at the zenith of Aquarius with his same body that he resurrected and still preserves in the Jinn state.

The Greater Mysteries, *1956*

There are Seven Avatars and Seven Truths; each one teaches a terrible truth. Jesus Christ is not an avatar; he is more than everyone; he is the Savior of the world, the Lord of all souls. He confirms the teachings of the avatars and amplifies them. He will come at the zenith of Aquarius and will confirm the teachings that I, Samael, have given you, and so on, successively in the other races. Then the kingdom of God will have been consummated just as he announced it to his servants, the prophets.

The Greater Mysteries, *1956*

v They will be the instructors of Aquarius

Inhabitants of other planets will come to the Earth as the instructors of Aquarius, and travel to the other worlds of the solar system will become routine.

From the year 1950 henceforth, the souls who will receive physical bodies will be only those who will have the chance to be properly prepared to live in the age of "Aquarius". Eventually, our planet will become almost barren, yet millions of inhabitants from other planets will come in order to illuminate the age of Aquarius.

The Revolution of Beelzebub, 1950

We spoke previously about 'UFOs' in our first edition of the book The Perfect Matrimony. We explained in that book that they are flying ships, and that the instructors of Aquarius will come in them.

The Revolution of Beelzebub, 1950

In the Age of Aquarius, many inhabitants of other planets will become established on the Earth. They will be the instructors of Aquarius. A few of them already live in concealment in Tibet. Journeys to other planets of the solar system will be routine; that is an extra help that will be given to our evolution. The abuse of nuclear energy awakens volcanoes and then, towards the end of the seventh subrace of the present Arian race, there will be huge earthquakes and seaquakes that will totally transform the terrestrial cortex; the Arian race will perish in these cataclysms.

The Greater Mysteries, 1956

The people from any of the worlds of this Solar System are already very advanced and they know very well the state of barbarism in which we, the inhabitants of Earth, are found. Nevertheless, in the New Era of Aquarius the inhabitants of the different worlds of the Solar System will establish official contact with our planet earth.

The Mysteries of Fire, 1955

In the New Aquarian Era, the Aryan Root Race will conquer the interplanetary ether, and cosmic trips to other planets will become routine. Cultural and commercial interaction will be established with all of the Solar System; thus, as a consequence, the human being will elevate himself to a high cultural level.

VI prepare to confront the darkness of Capricorn

After the two thousand years of Aquarius comes Capricorn, a dark age, in which the souls held in the abyss are given a last opportunity.

BROTHERS FROM AQUARIUS

Make good use of the two thousand years of light.

from The Revolution of Beelzebub, 1950

from Secret Notes of a Guru, 1952

Beings of Aquarius! Exert yourselves on your path towards the light. Redeem and fuse yourselves with your Intimate, before the evil ones of this XX century leave the abyss. A new sign of darkness is approaching (Capricorn). Therefore, it is the time for you to be alert and vigilant, because the Earth will again be invaded by the Demon-Souls of this Dark Age, who I, Aun Weor bound into the abyss in order for you to have the happiness that you are now enjoying.

The Revolution of Beelzebub, 1950

"A thousand years" signifies various thousands of years. In other words, Javhe and his people will remain within the abyss during the whole luminous cycle of Aquarius. Yet, in the cycle of

Capricorn, the last opportunity for their repentance on our Earth will be granted to them.

The Revolution of Beelzebub, 1950

The people from the 20th Century do not understand me, but the children of Aquarius will understand. Therefore, Brothers from Aquarius listen to me: the men from the 20th Century were barbarians, and went into the abyss. You will enjoy peace while they are in the abyss, but when they come back from the abyss the earth will be again filled with a horrible darkness. Make good use of the two thousand years of light. Realise yourselves to your utmost depth, and prepare to confront the darkness of Capricorn.

Secret Notes of a Guru, 1952

Presently, the brothers of the Great College of Initiates of the White Lodge are making a selection of human personnel, separating the sheep from the goats in order to be able to initiate the new era. It would be impossible to begin an age of Light with a personnel of murderers, prostitutes and thieves. We say that everyone who spills the semen becomes a demon, even if he is a theosophist or rosicrucian; mystical thieves, irate persons and murderers also become demons. There are presently millions of souls who have horns on their foreheads; they are divorced from the Inner-Self; they are demons. Although many of them are sincerely mistaken and with good intentions, these souls have already descended to the degree of demons; and they believe themselves to be saints, how gullible they are! Demons become inhabitants of the abyss and will not be able to reincarnate in Aquarius, which is the millennium of the Apocalypse; they shall be postponed until the Age of Capricorn (the age of the Holy Spirit). There they shall be given a last opportunity. During that time, Jahve will have a physical body and he will be born in Palestine; he will be a warrior. Then the inhabitants of the abyss, after having experienced the terrors of the abyss, will be called to order and they will have to define themselves in the flesh, for Christ or Jahve.

How this was made. All fifty-two books were extracted (73,105 paragraphs, 2,157,671 words) and swept for the sign. The sweep took the whole Aquarius chapters of three books: the *Zodiacal Course* (1951, ¶806–858, with the summary of the eleventh lesson, ¶1036–1041, and the line of the genii, ¶942; 60 paragraphs), the *Esoteric Treatise of Hermetic Astrology* (1967, ¶873–1033, 161) and the *Manual of Practical Magic* (1954, ¶530–533, 4). It then took every other paragraph in any book that names Aquarius (278, the Spanish text of the Christmas Message of 1952 among them), the lines of his correspondence tables not already in, the plants and the perfume of *Occult Medicine and Practical Magic* and the table of the body in the *Hermetic Astrology* (¶28) (2 not already taken), and, where his sentence ran across the paragraph break, the paragraph beside it (150). That returned **655 candidate paragraphs in 38 books**, 152 of them already printed in another work of the shelf. Every candidate was read **twice, by independent readers** working from a written brief. The two passes agreed on whether to print 96.2% of the time and on the class 95.4%. A third reader, who saw neither verdict, settled twenty-four of the twenty-five disagreements on whether to print, and read ¶828 of the *Zodiacal Course* again for the doctrine; the last, the row label AQUARIUS of the perfume table in *Occult Medicine* (¶1611), was set aside at placing, since the line it labels prints. Where the two differed only on the class, the first reader's class stands. 394 were judged printable. Of these, ten were left out (named below) and 75 were joined into the passage before them

where his sentence or his list ran across several paragraphs, so **309 passages are printed here.** The rest are recorded with the reason each was set aside.

The practices were not gathered in a separate pass. The seven passages marked as practices are the ones the readers marked as giving the reader something to do. Four of them are gathered as the last part, with the two passages that stand among them, the genii of the sign and the line of its perfume; the other three stand where they cannot be lifted out: two in the fourth part, working with Proserpine on a defect first comprehended and finding the defects by meditation, among his words on the I's they rest on, and one in the sixth, inside a Christmas Message on the doctrine of the age.

What was set aside. Of the 261 paragraphs the readers set aside, 120 carried "Aquarius" only as a label: the Avatar of Aquarius and his other titles, the title *Aquarian Message*, bylines, dates such as the second year of Aquarius, and the names of schools and movements. 62 were headings, the titles, salutations and sign-offs of his letters and messages, and bare list items; 29 named the sign only in passing (a narrative, the promise of Tlaloc to return, a line of rhetoric); 17 were an index, a table of contents, a bibliography, a chronology or a translator's note; 17 said nothing on the sign (the lead-in to a set-aside line, a continuation, another subject); 12 belonged to another sign or listed all twelve; and four were the Spanish copy of the Christmas Message of 1952.

Nineteen mends, every one recorded. Eight are fixes, which put a scanner's slip right: "which can. be angelic" for "which can be angelic"; "The AtmaVidya is impossible" for "The Atma-Vidya is impossible"; "the Mysteries o Isis" for "the Mysteries of Isis"; "if we do no to combine" for "if we do not combine"; "of the PhysicalBody" for "of the Physical Body"; "wisely combing the waters" for "wisely combining the waters"; "without distinctionof schools" for "without distinction of schools"; "to the battlel" for "to the battle!". Four are joins, which close up a word the scan broke in two: "is de rived from sacral" for "is derived from sacral"; "is al ready approaching" for "is already approaching"; "the ener getic and mystical" for "the energetic and mystical"; "the internal wo rlds until" for "the internal worlds until". Seven are trims, where the extraction ran words that are not part of the passage into it: in the *Zodiacal Course* (¶487) the end of an exercise for another constellation before it and a line on the four Lords of the karmic balance after it; two items on clairvoyance before item 93 of the *Igneous Rose* (¶1201); the riddles before "When we know" in the *Greater Mysteries* (¶1070); the end of the sentence before in the *Secret Notes of a Guru* (¶298) and in the *Christmas Messages* (¶393); and the item before "142. AQUARIUS" in the *Manual of Practical Magic* (¶530), which belongs to the sign before. Four lines were lifted out of the passages they stand inside: the headings of the exercise and the prayer in the exercise of the calves, in both lessons, and a page header inside a Christmas Message. Otherwise the passages are printed as the extraction gives them, its remaining slips included ("important, part", "withdraw Into").

No sentence of his is cut in half. Each range was extended against the corpus until his sentence closed, and 58 ranges run over more than one paragraph.

Ten paragraphs were left out on purpose, each because the same words print elsewhere on the page: three paragraphs of the *Christmas Message* of 1952 (¶236–238) that are the Spanish copy of its English text, which prints; two more of that message (¶258–259) whose same words print from the *Christmas Messages* (¶141–143); four paragraphs of *Tarot and Kabalah* (¶2484–2486, 2492) that repeat *The Buddha's Necklace* (¶162–165), which prints them whole; and one line of the *Igneous Rose* (¶2065) that the *Greater Mysteries* (¶782) prints in its teaching on intuition. Every other paragraph judged printable is printed.

110 passages also stand in a finished work, and every one is marked where it stands, most often in *The Words He Uses* (15), *The Three Factors* (12) and *The Centres of the Human Machine* (12). The repetition is wanted: this is the vocabulary of the whole teaching, and a reader who meets the same line in a second book holds it better. What is not allowed is an overlap a reader cannot see.

One passage carries an editor's note: item 21 of *The Mysteries of Fire* (1955, ¶439), on the breath in Pranayama, in the sixth part; the note under it gives his later teaching. Every passage from his early books was read for a line that credits the Kundalini to anything other than the work of the couple, and that is the only one: the seven serpents of the *Zodiacal Course* stand in a lesson that ties every one of them to sexual magic, and the Christmas Message beside them names the work with one's wife.

Checked twice over. Every section and part title is a line of his, proved against the passages under it. And every passage was checked word for word against a fresh extraction of its book.

The fourth work of The Zodiac, beside *Scorpio*, *Sagittarius*, *Capricorn* and the *Zodiacal Course* booklet on the shelf, which prints his practice for every sign. This one gathers everything he says on one sign. It wears the pale night-blue of the zodiac and the themed works' two hairlines, in the green of his table for the sign.
