Samael Aun Weor · in his own words

Every word here is his. Nothing has been paraphrased or improved. Each passage was cut out of the book it belongs to by reference, and each carries that book and the paragraph it came from, so anything on this page can be found again in the source. Most of it comes from the three books where he gave a whole lesson on the sign, the *Zodiacal Course*, the *Esoteric Treatise of Hermetic Astrology* and the *Manual of Practical Magic*; the rest are the paragraphs where he names Taurus, or ties the Bull and the Cow to it, in other books. Many of these passages also stand in other works of the shelf, chiefly *The Laws of the Three and of the Seven*, *Slander* and *The Law of Karma*. They are gathered here on purpose: the same teaching comes back in several of them because hearing it again is how it settles.

The first part is the sign and its tables: its dates and its table, its metal, stones, colour and element, the number two, its plants, the sixth Sephirah and the genii of the sign, and the throat in the living zodiac: *"To the number 2 corresponds the constellation of Taurus, which governs the neck" "The plants of TAURUS are similar to the human neck and they belong to the element earth."*

The second is the law: the two golden rules and the third that solves them, the scale of deeds, the Lords of Karma and the Cosmic Bank, karma and dharma, and the three eternal things: *"Do good deeds to pay your debts" "We ourselves are the creators of our own destiny."*

The third is the creative verb: the larynx where the verb is born, the verb and the four elements, the seven cosmos, their notes and their laws: *"The larynx is also a sexual uterus where the verb is born." "There are seven orders of worlds, seven cosmos that were created with the power of the Verb, with music, with sound."*

The fourth is the sexual marriage of the word: the three forces and their names, and the seven temples where the Elohim sang the universe into being: *"These three forces constitute the Sacred Triamazikamno." "The Angels create with the power of the word."*

The fifth is the responsibility of the verb: the misuse of the word, slander, criminal silences, sincerity, and sterile and fertile words: *"…there is another kind of fornication with the verb." "The perfect man is he who knows how to keep silent when his "Inner-Being" does not speak."*

The sixth is the sparkle of Venus: the two glands of the neck, the work with the sparkle of Venus and the prayer to the Angel of Venus, the choir of Angels, the clock of destiny and the Magical Ear: *"Venus is related to Love and Mars to war." "That is how the army of the word creates by means of the verb."*

The seventh is the Bull and the Cow: the cattle and music, the Puranic Trimurti, the five-legged Cow, the conductor of the Cow, the Mithraic Bull, the Cretan Bull, and the Pleiades round the eye of the Bull: *"The Bull, the Cow, the calf become touched by music" "Father, Mother and Son; that is the Puranic Trimurti."*

The eighth is the natives, those born under the sign: *"Taurines are tame and industrious like the bull" "Taurines are like the ox: hardworking and tenacious."*

The ninth part is the practice: the light taken from the head to the throat with AOM and with AUM, the genii of the sign, the vowel E and the perfume: *"With the vowel "A" he imagines the light descending from his head to his throat" "The vowel "E" causes the Thyroid gland, which is the center of the magical ear, to vibrate."*

This is the seventh of twelve, one for each sign, each released as the sun enters it.

Part Two – how to kill Karma

4 PASSAGES

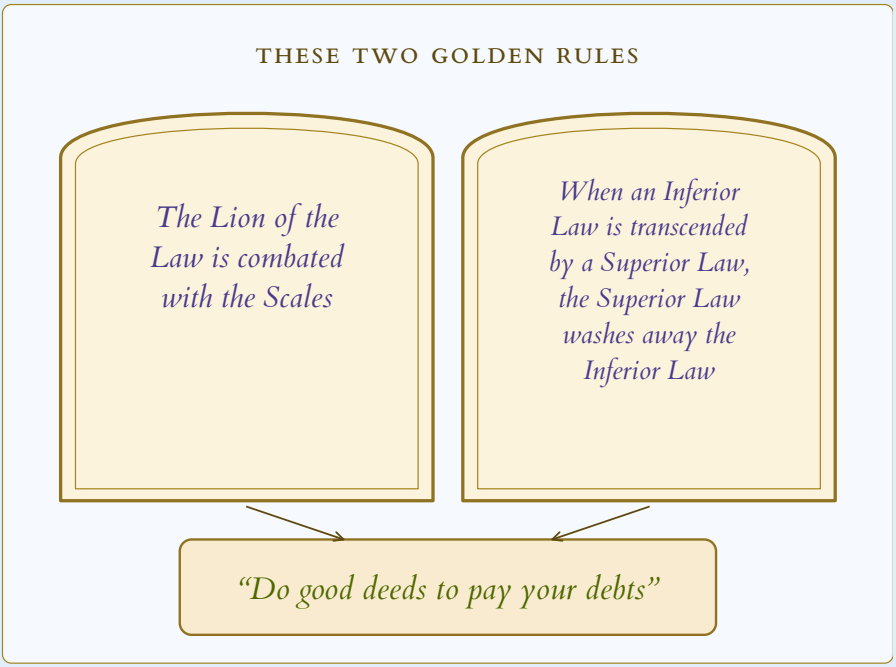

1 The Lion of the Law is combated with the Scales

The second lesson keeps a promise made in the first: the clues of the two golden rules, the third rule that solves them, and the image of the scale with good deeds on one pan and bad deeds on the other.

PART TWO

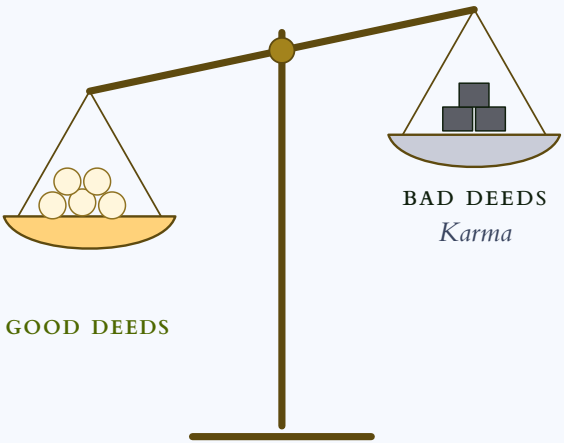

The Lion of the Law is combated with the Scales

The solution to these two golden rules is found in a third which says: "Do good deeds to pay your debts".

from Zodiacal Course, 1951

IMAGINE A SCALE

Very well, now imagine a scale: On one pan lie your good deeds and, on the other, your bad deeds and your corresponding Karma.

from Zodiacal Course, 1951

In the past lecture I promised I would give thee the clues of these two golden rules: The Lion of the Law is combated with the Scales; When an Inferior Law is transcended by a Superior Law, the Superior Law washes away the Inferior Law.

Zodiacal Course, 1951

The solution to these two golden rules is found in a third which says: "Do good deeds to pay your debts".

Zodiacal Course, 1951

...thou shall incline the scale in thy favor and thus kill Karma.

Zodiacal Course, 1951

Very well, now imagine a scale: On one pan lie your good deeds and, on the other, your bad deeds and your corresponding Karma.

Zodiacal Course, 1951

If the Karmic pan is inclined against you, then you will be able to fight it by placing more weight on the pan of good deeds and then thou shall incline the scale in thy favor and thus kill Karma.

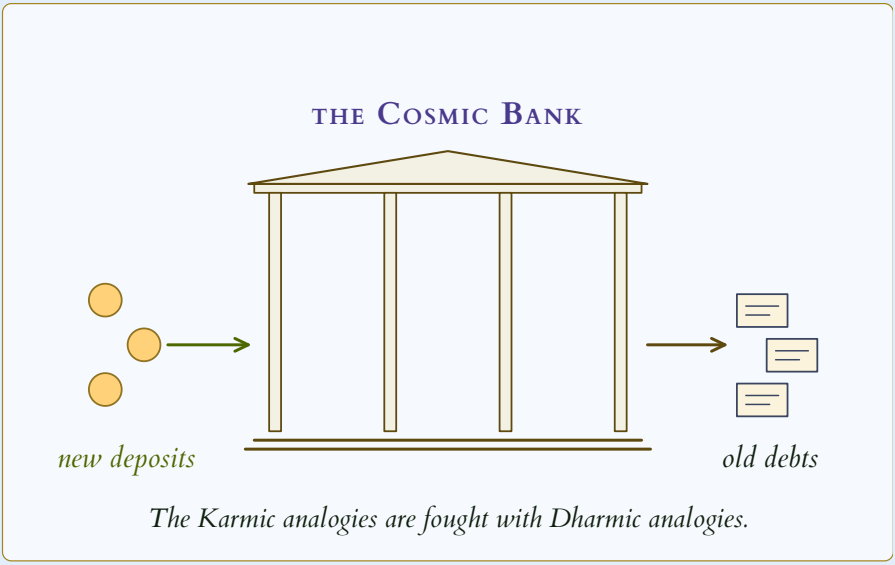

Zodiacal Course, 1951

2 PASSAGES

11 A temple of the Lords of Karma exists in the subtle world

The judges of destiny have a temple and a chief. Good deeds are capital in the Cosmic Bank, and karmic analogies are fought with dharmic ones.

THE COSMIC BANK

When we have accumulated capital in the Cosmic Bank, we pay our debts and avoid pain.

from Zodiacal Course, 1951

A temple of the Lords of Karma exists in the subtle world and the jackal is great chief of these judges of destiny. This great Being is supreme Judge of the Cosmic Tribunal; he has the appearance of a great man with the head of a jackal.

ZODIACAL COURSE, 1951

When we have accumulated capital in the Cosmic Bank, we pay our debts and avoid pain. Those who live daily making "new deposits" to the Cosmic Bank will always have something with which to pay their old debts. In this matter of paying debts, one should always keep in mind the law of "Analogies" and of "Correspondences". The Karmic analogies are fought with Dharmic analogies.

2 PASSAGES

III Karma and Dharma: these two oriental terms mean punishment and reward

To modify the causes is to modify the effects. He gives examples of paying a debt with its opposite deed, and reminds the disciple that justice is the supreme mercy of the law.

KARMA AND DHARMA

modifying the causes, one modifies the effects, since the effects are nothing else but causes reproduced in another form.

from Zodiacal Course, 1951

Karma and Dharma: these two oriental terms mean punishment and reward. In a more philosophical form we would say: bad action and bad consequence, and modifying the causes, one modifies the effects, since the effects are nothing else but causes reproduced in another form. Are you going to be made a prisoner? Give freedom to another ! Is your son going to die? Heal your fellowman ! Are you in misery? Give all that you have left to the hungry and sacrifice all your

efforts in favor of others. Beg, in prayer, to the Lords of Karma and you will be heard.

Zodiacal Course, 1951

Do not forget, beloved disciple, that justice is the supreme mercy and impiety of the law. So, I have already taught you the two golden rules and I have explained to you how to kill Karma. In the following lessons I will be teaching you how to manage the sidereal rays.

IV We ourselves are the creators of our own destiny

He who gives receives, and those who do evil are victims of their own deeds. The lesson on the Law closes with the three eternal things.

THREE ETERNAL THINGS

There are three eternal things in life: the LAW, NIRVANA and SPACE.

from Zodiacal Course, 1951

He who has, receives and the more he gives, the more he receives: that is the law. But those who do works of evil shall be victims of their own deeds !

Zodiacal Course, 1951

Why do people suffer? Why do they blaspheme against God if human suffering is not God's fault? We ourselves are the creators of our own destiny. Sanctify thyself, beloved disciple, Sanctify thyself!

The larynx is a sexual uterus, where the word is gestated.

THE CREATIVE LARYNX

The creative larynx will be the sexual organ of the future divine humanity.

from Zodiacal Course, 1951

Taurus rules the larynx and the neck. The larynx is also a sexual uterus where the verb is born. The creative larynx will be the sexual organ of the future divine humanity. The sexual fire of the Kundalini becomes a creator in the word. In our works titled "The Perfect Matrimony", "The Revolution of Bel", and "Treatise of Occult Medicine and Practical Magic", we already have extensively spoken about the Kundalini and we taught the Great Arcanum or supreme secret for the awakening of the asleep princess of the Kundalini

THE FOUR ELEMENTS OF NATURE

from Zodiacal Course, 1951

The verb is intimately related with the four elements of Nature and due to this, the initiates of the ancient temples of mystery were prohibited from talking

about the old catastrophes of ancient Arcadia in fear that they would bring them back into existence.

Zodiacal Course, 1951

The ancient hierophants knew too well that the verb is related to the four elements of Nature, and that talking about a catastrophe is as much as evoking it again. For this reason, the "initiates" never spoke publicly about the archaic cataclysms.

VI Each of the Seven Cosmos is beyond all doubt a living organism

There are seven cosmos, not two. Each one lives and breathes, and to know one of them we must first know the two beside it, above and below.

If we want to know a cosmos, we should first know the two adjoining ones, the one that is above and the one that is below

from Esoteric Treatise of Hermetic Astrology, 1967

Pseudo-occultists and pseudo esoterists only mention the Microcosm and the macrocosm; they merely mention two orders of worlds, when in reality there

are Seven Cosmos, seven orders of worlds sustained by the Verb, by music, by the spermatic and Luminous Fiat of the first instant.

Esoteric Treatise of Hermetic Astrology, 1967

Each of the Seven Cosmos is beyond all doubt a living organism that breathes, feels and lives.

Esoteric Treatise of Hermetic Astrology, 1967

From the esoteric point of view, we can affirm that every progress upwards, is the result of a progress downwards. One cannot ascend without descending. First one has to descend and then ascend.

Esoteric Treatise of Hermetic Astrology, 1967

The creation of the Seven Cosmos was only possible by means of the verb, by means of the word, by means of music.

Esoteric Treatise of Hermetic Astrology, 1967

If we want to know a cosmos, we should first know the two adjoining ones, the one that is above and the one that is below, because both determine all the circumstances and vital phenomena of the cosmos that we want to study, to know.

The Rituals of Fire were sung and the sexual marriage of the word fecundated the Great Womb of the Chaos and the Universe was born.

from Esoteric Treatise of Hermetic Astrology, 1967

The Creative Process of the Sacred Cosmic Common Triamazikamno was initiated with the sexual marriage of the word because in the beginning was the

verb, and the verb was with God and the verb was God. Because of him all things were made and without him nothing that is made would have been made.

Esoteric Treatise of Hermetic Astrology, 1967

In accordance with the Sacred Law of Heptaparaparshinokh (the Law of Seven), seven temples were established in the Chaos for the construction of this solar system. In accordance with the Sacred Law of Triamazikamno (the Law of Three), the Elohim divided into three groups within every temple to sing in accordance with the Litur of Fire. The work of making fecund the Prakriti, In other words, the Chaos, the Cosmic Mother, the Great Womb, is always the labor of the very sacred Teomertmalogos, the Third Force. The three groups organized themselves within each temple in the following manner: First, a Priest. Second, a Priestess. Third, a Neutral group of Elohim.

Esoteric Treatise of Hermetic Astrology, 1967

If we take into consideration that the Elohim are androgyny it is then clear that they had to polarize themselves at will in a Masculine, Feminine and Neutral form, in accordance with the Sacred Cosmic Common Triamazikamno.

from Zodiacal Course, 1951

A PRACTICE

Do you know of any home where bitterness reigns? Do you want to serve disinterestedly? Do you know of a poor woman abandoned in misery by a suitor? Do you want to help her? Listen to me well, beloved disciple, for I will teach you how to use the sparkle of Venus: Sit in a comfortable chair. Close your eyes. Set aside all earthly thought from your mind and focus your thought on your Internal Master, praying like this: "Dear Father, you who art my true Being, I beg you with all my heart and with all my soul, that you penetrate in the "heart temple" of the star of Venus so that you may kneel at the feet of "Uriel" and ask of him the following favor: (One asks for the favor one desires)". Then, the disciple mentally salutes the guardian at the right column, will take a deep breath and pronounce the password "Jachin". Next, he will do the same with the guardian at the left column and pronounces the password: "Boaz", in other words, first the deep breath, then he will pray to his Internal Master telling him: "Lord, take the seven steps into the temple to make the petition. My Father, my Lord, my God". Once the petition has been made, one asks "Uriel" with one's whole heart for a choir of Angels to accomplish the work. (Singing, they create).

They grant what we ask for, when Karma allows it. However, if our petition is not granted, then Uriel will show the disciple "the clock of destiny" and, in this case, we have no other option but to bow down our head before the verdict of the Law. In the actual world, there is a great number of schools that try to accomplish these same "miracles" by mental force, without taking into account at all, the approval of the Lords of Destiny. That is simply, pure and legitimate black magic. The Christ-mind works well with the law. Black mental waves do

not arrive where they are sent because a multitude of aerial "elementals", that trap and intercept their path, exist in the subtle world. Innumerable forces, which divert or disintegrate destructive mental waves, also exist in space. Therefore, evil waves can only cause harm when the victim does not know how to love nor forgive.

Zodiacal Course, 1951

Mental energy is absolutely deficient when it does not work with the energy of the Inner Self. The miracle worker utilizes mental energy, but uniting it with the Inner Self. That is the wise mind. Part Nine – the exercises of Taurus

PART NINE

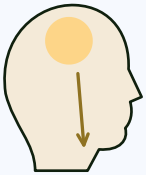

THE CREATIVE LARYNX

O

the light flooding his throat

M

expiring the refuse

This mantram is pronounced four times.

With the vowel "A" he imagines the light descending from his head to his throat

from Zodiacal Course, 1951

A PRACTICE

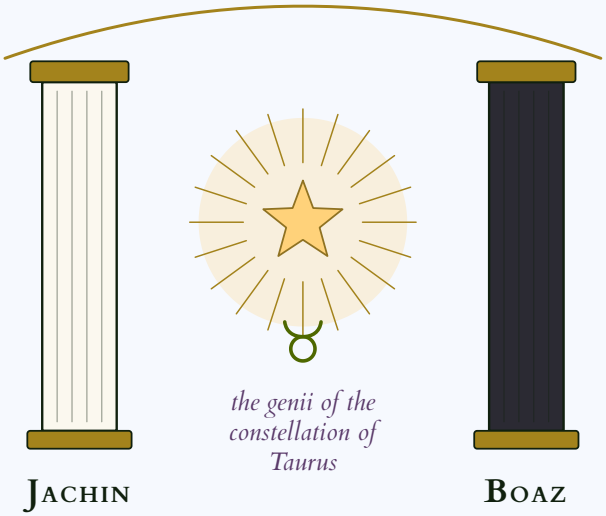

Let us now enter the exercises of Taurus. During this month, the following exercise is done: The disciple should sit on a comfortable chair. Close your eyes, remove all thought from your mind, make yourself a little drowsy and then focus your mind inwards, towards the Inner Self, praying like this: "My Father, now transport yourself to the principal star of Taurus, enter through the doors of the heart-temple making the salutes which you already know and beg the sidereal genie and his angels of that star to condescend and come to me, so that they may "prepare" me and cure my larynx." Then, already sleepy, the disciple should imagine seeing light accumulated in his head now descending to his throat, while he pronounces the word: "AOM". With the vowel "A" he imagines the light descending from his head to his throat; with the vowel "O", he will imagine the light flooding his throat; and with the vowel "M", the disciple will exhale the breath as if expiring the refuse that resides in his throat. This mantram is pronounced four times.

Therefore, the genii of the constellation of Taurus will personally come to awaken the powers of the larynx and if the disciple has any laryngeal illness, he can ask of these genii of Taurus to be cured and they will cure him. The disciple will also be able to take advantage of these powers to heal others.

How this was made. All fifty-two books were extracted (73,105 paragraphs, 2,157,671 words) and swept for the sign. The sweep took the whole Taurus chapters of three books: the *Zodiacal Course* (1951, ¶78–153, the lesson on Taurus, with the summary of the second lesson, ¶982–987; 82 paragraphs), the *Esoteric Treatise of Hermetic Astrology* (1967 75) and the *Manual of Practical Magic* (1954, ¶442–447, 6). It then took every other paragraph in any book that names Taurus or the Taurines (21), and every paragraph that

names the Bull, the Cow, the calf, the heifer, the ox, Apis, Mithra, the Minotaur, the Pleiades or Aldebaran (215), for the readers to keep only where he ties it to the sign; the lines of his correspondence tables not already in, from *Occult Medicine and Practical Magic* (3); and, where his sentence ran across the paragraph break, the paragraph beside it (12). The larynx and the thyroid were not searched for on their own: they run all through his books on the mantras, and the lessons on the sign carry what he says of them under Taurus. That returned **414 candidate paragraphs in 42 books**, 183 of them already printed in another work of the shelf. Every candidate was read **twice, by independent readers** working from a written brief. The two passes agreed on whether to print 99.0% of the time and on the class 98.3%. A third reader, who saw neither verdict, settled the four disagreements on whether to print, and set all four aside: a rule the *Zodiacal Course* gives for every sign (¶944), a line of another sign's chapter that only names a Taurine husband (*Hermetic Astrology*, ¶1024), and two paragraphs of *The Three Mountains* (¶2120, ¶2122) where the Cretan Bull is his own task, with no word of the sign. The three that differed only on the class were settled in placing: ¶130 of the *Zodiacal Course* as a practice, ¶50 of *Hermetic Astrology* as the end of the sentence before it, and a heading of *Occult Medicine* set aside. 166 were judged printable, and 35 of them were joined into the passage before them where his sentence or his list ran across several paragraphs, so **131 passages are printed here.** The rest are recorded with the reason each was set aside.

The practices were not gathered in a separate pass. The eight passages marked as practices are the ones the readers marked as giving the reader something to do. Seven are gathered as the last part, with the three passages that stand among them: what the vowel E also gives, and the perfume of the sign. The eighth, the work with the sparkle of Venus and the prayer to the Angel of Venus, stays in the sixth part, because the passages after it say what follows when the petition is granted or refused.

What was set aside. Of the 248 paragraphs the readers set aside, 216 spoke of the Bull, the Cow, the calf, the ox, Apis, Mithra, the Minotaur or the Pleiades without tying them to the sign: images, sayings, stories, and the Sacred Cow of other chapters. Of the 215 paragraphs of the Bull the sweep found, 214 were set aside; the one kept tells how the Cretan Bull came to Minos, straight after the line where he relates it to Taurus. Twenty-one were headings, salutations, sign-offs and the labels of his tables; eleven belonged to another sign, named Taurus only in a list of the signs, or gave a rule for every sign.

Two mends, recorded. In the *Esoteric Treatise of Hermetic Astrology* this page prints "names: Surp-Otheos, Surp-Skiros" for "names: SurpOtheos, Surp-Skiros"; "humble and hard workers" for "humble and hard. workers", as the scan has it: the first is settled by the same sentence, which spells the other two names Surp-Skiros and Surp-Athanotos (¶74); the second by the *Manual of Practical Magic*, where the same natives are "hardworking" (¶447).

Otherwise the passages are printed as the extraction gives them, its remaining slips included ("The Revolution of Bel", "others dry it This", "Give freedom to another !").

No sentence of his is cut in half. Each range was extended against the corpus until his sentence closed, and 16 ranges run over more than one paragraph. The three headings inside printed ranges, PRAYER and EXERCISE in the *Zodiacal Course* (¶134, ¶142, ¶144), are not printed.

Nothing was left out on purpose. Where he says the same thing in two books in different words, both are printed: the larynx as the uterus where the word is gestated, the misuse of the word, the criminal silences, the sixth Sephirah in his two lists, and the natives in three books.

81 passages also stand in a finished work, and every one is marked where it stands, most often in *The Laws of the Three and of the Seven* (28), *Slander* (10) and *The Law of Karma* (9). The repetition is wanted: this is the vocabulary of the whole teaching, and a reader who meets the same line in a second book holds it better. What is not allowed is an overlap a reader cannot see.

No passage carries an editor's note. Every passage from his early books was read for a line that credits the Kundalini to anything other than the work of the couple, and none does: the one passage of the lesson that names its secret names the Great Arcanum, the work of the couple; the exercises of the sign are given for the larynx, the thyroid and the occult ear, and in them the light descends from the head to the throat.

Checked twice over. Every section and part title is a line of his, proved against the passages under it. And every passage was checked word for word against a fresh extraction of its book.

The seventh work of The Zodiac, beside *Scorpio*, *Sagittarius*, *Capricorn*, *Aquarius*, *Pisces*, *Aries* and the *Zodiacal Course* booklet on the shelf, which prints his practice for every sign. This one gathers everything he says on one sign. It wears the pale night-blue of the zodiac and the themed works' two hairlines, in the green of his table for the sign.
