1 A female Master appears seated between two larger columns

In the Waters of Life the two columns of the Temple of Isis are shown; the white, Jakin and the black, Boaz. Each one has four levels indicating the Four Bodies of Sin; Physical, Vital, Astral and Mental. Above, a female Master appears seated between two larger columns. She is within a temple and is facing us; for this reason the columns are reversed. The fact that she is seated indicates to us her passive aspect. In Arcanum number 1 the Magician is standing; the active aspect. She is showing her left profile, her negative aspect.

1 Tarot and Kabalah, 1978 ·¶84

In her lap there is a half-opened book, which she partially covers with her shawl. This indicates that she is Wisdom, that she teaches the Kabbalah. Upon her chest is the Crux Ansata, the symbol of life, of the fundament, Venus, the Tao Cross. The cross upon her naked breast signifies that its product, the Milk, are the Virtues.

2 Tarot and Kabalah, 1978 ·¶85

The serpent upon her brow indicates Mastery; that she is arisen.

3 Tarot and Kabalah, 1978 ·¶86

Above her head are the horns of the Sacred Bull Apis, husband of the Divine Cow. Internally the horns signify the Father, and externally, the "psychological I" (our defects). We also find the attributes of the Little Calf, or Kabir. The circle is the Serpent which bites its tail, representing the Cosmic Mother, the Sacred Cow. The veil which covers her face is the veil of Isis.

5 Christ Will, 1959 ·¶175

Description of Stela H: The Priestess The face of this deity has a completely hieratic countenance. Her miter carries all the characteristics of the true priesthood; she is omnipotent, marvelous. The form of her ears indicates the Verb, the Word. The pectoral that rises from the center of her chest until practically connecting it with her ears indicates that the true man, Tiphereth, the human soul that is in the center of her chest, must know how to listen the Verb, the Word, the sapience, the wisdom.

6 The Mayan Mysteries, 1977 · ¶471-476

The Mother carries her son, the Verb, in her arms. She is seated between the two pillars that symbolize the man and the woman. Adore the Virgin of the sea, my brothers. In the second Arcanum of the Tarot appears the Divine Mother making with her hand the sign of priestly esotericism. Study from the sacred book of your Divine Mother. “Ask and you shall receive; knock and it shall be opened unto you.” Your Divine Mother can grant the occult powers you long for. Pray to your Divine Mother. Practice your esoteric exercises; you may ask your adored Mother for clairvoyance, telepathy, clairaudience, the faculties for astral emergence, etc. You can be certain that your Divine Mother will know how to listen to your supplications. You must meditate profoundly every day on your Divine Mother, praying and supplicating. “You need to be devoured by the Serpent.” One—1—is the man, two—2—the Woman. Man is one pillar of the temple; Woman is the other one.

2 Unity becomes the origin of Duality, or the Binary

The number 200,000,000, gives us the second Arcanum of the Tarot, when its numbers are Qabbalisticaly added together. The second Arcanum is the woman, the Priestess, occult science.

8 The Aquarian Message, 1960 ·¶971

Arcanum number 1 is the Magician, that which initiates, which begins; the 1. It is Unity, the Divine Spirit of each person, the Monad or Immortal Spark of each human being, of each living creature. The One is the mother of all unities. The One unfolds to become that which is the fol lowing Arcanum, the Priestess.

9 Tarot and Kabalah, 1978 ·¶63

ESOTERIC MEANING OF THE ARCANUM Arcanum number 2 is the Priestess, Occult Science. In the region of the Spirit, the One is the Father who is in Secret, the Two is the Divine Mother who is the Unfoldment of the Father.

10 Tarot and Kabalah, 1978 ·¶88-89

Unity becomes the origin of Duality, or the Binary: 1 + 1 =2; and finally, in that Unity is the fulfilling synthesis of the Ternary. The Unity, the 1, is the Divine Monad, the First Logos, the Father who is in secret. Each one of us has his own individual Monad. Madame Blavatsky used to say that there are as many Fathers in heaven as there are men on Earth. The Father, in turn, or of himself unfolds into the Divine Mother. So it is that He and She are Brahma because She becomes the feminine aspect of Him. We see then how Unity is the root of the Binary, given that the latter could not exist without the Unity. If the Monad had not existed the Divine Mother would not have existed. The Monad is the root of Duality. There are as many Mothers in heaven as there are men upon the Earth. Each one of us has his internal God, or his own particular celestial Father and Mother. In explaining this, it is better understood why Unity is the fulfilling synthesis of the Ternary and how and why it is produced. When Jesus prayed, he prayed to the Father who is in secret, and he left us a prayer which is the “Our Father”. This prayer is completely magical. It takes a couple of hours to pray the “Our Father” well, because each petition which is made to the Father is

totally magical. The mistake that people make is to pray it in a mechanical manner, and this has no effect. The prayer must be broken down, analysed; and in order to do this one must relax the body so that not a muscle is tense, and then to concentrate, combining prayer with meditation.

11 Tarot and Kabalah, 1978 ·¶804

These claws have a very grandiose meaning. If we add number 11 kabalistically: 1 + 1 = 2; we get Arcanum number 2 which is the Priestess, Occult Science, the Divine Mother. She herself is living "Fire", and for this reason, in the Orient she is called Devi Kundalini in the individual, and Maha Kundalini in the macrocosmic. It is vital to learn to work with the Fire and for this reason the "Two" breaks down kabalistically into 1 Man + 1 Woman who must work with the Fire, in the Magistery of Fire. The chariot pulled by lions is a very esoteric allegory and comes from most ancient times. The chariot represents the human being, the lion, Fire. It is none other than a living symbol of the Solar Man, the Sun-Man. When the chariot is spoken about, it is an allusion to the internal bodies of man; the vital, astral, mental; the Real Being must mount that chariot. The Zohar depicts the "Ancient of Days" travelling across the Infinite in his chariot. Without doubt, the Real Being must always travel in his chariot in order to work in the worlds.

12 Tarot and Kabalah, 1978 ·¶1311

Number 1 divides into the dyad. The number 2 is the first Trimurti in its second aspect, the Christ. This should not be confused with the second Trimurti in which the Father divides into the Mother, and She into the Child.

13 Tarot and Kabalah, 1978 ·¶2712

Mars descends to the Blazing Forge of Vulcan in order to retemper his sword and conquer the heart of Venus; Hermes, to clean the stables of Augeas with the sacred fire; and Perseus to cut off the head of Medusa. Remember, beloved disciples, that our Divine Mother is Nut and that her word is fifty six—56. This

number is kabbalistically reduced as follows: 5 + 6 = 11; 1 + 1 = 2. One is the Father. Two is She, Nut, the Divine Mother Kundalini.

15 Zodiacal Course, 1951 ·¶626-627

Two priests always tended the Fire. Here we have the binary. They each used tongs to place the pieces of wood, and a spoon to scatter in it the perfumes. There were then, two tongs and two spoons. In all this we can see the binary. By this, one is given to understand that only the Number Two can tend the Fire. It is necessary that man and woman in perfect binary, light and tend the Divine Fire of Ahura Mazda.

16 The Perfect Matrimony, 1950 ·¶1499

The 2 is negative. In the temples in ancient times there was a priest and a priestess. In the primordial Masonry there was a Master and a Mistress. Count Cagliostro tried to establish Egyptian Masonry in England. He had, however, many enemies and established two thrones. Giovanni Papini met Count Cagliostro on board a boat. They became friends and Cagliostro told him who he was. He wanted to avert the Second World War, but as no-one took any notice of him, he went once again to Tibet, saying that he would return 60 years later. Egyptian Masonry was grandiose; in anc ient times, when the sacred hermaphrodites existed, the 1 and the 2 were fused. In the polar epoch of the First Protoplasmic Race, humanity was androgynous. Sexual reproduction then took place in determined periods of the year. One divided into two; that two was the son.

17 Tarot and Kabalah, 1978 ·¶838-841

The masculine and feminine principles conjoin in the Holy and mysterious Tetragrammaton; an esoteric name which must not be spoken in vain and which has a relationship with the letters of the name of the Eternal in Hebrew. He Vau He Iod (Hebrew symbols which are read in reverse). Iod: Eternal

masculine principle. He: Eternal feminine principle. Vau: Masculine phallic principle; the Lingam. He: Feminine principle; the uterus, the Yoni. Iod He Vau He reduces to SSSSSSSSSSSSSSSSSSSSS. These four letters have within them, immense priestly power. They must be pronounced like the howling of a cyclone in the mountains, or imitating the wind. They are spoken softly when one wants to heal one who is ill, or to invoke a Deity. They serve also for meditation. Within these four letters are represented the two principles, masculine and feminine of the Macrocosmos and the microcosmos; the Staff – masculine principle, and the Goblet – feminine principle. In these four letters is the principle of the Eternal which must not be pronounced in vain. The number "2" is essential. The Mystery Temples never lack "2" altars. One can not enter into the Temple without passing two columns where there are two guardians. What would there be of the Great Life if the number "2" did not exist? The Matripadma receives the masculine Fohat ray. The Holy Spirit, husband of the Divine Mother fecundates it, and the universe comes into being. What would there be of life without the other principle? Before the dawn of the Mahamanvantara, the Cosmic Day, nothing existed, the Gods lived in that which is nameless, without form, without sound, with out silence, and without hearing to perceive it.

18 Tarot and Kabalah, 1978 · ¶844-854

In the number 2 are the two columns, Jakin and Boaz; there is association. One must learn to associate ideas, thoughts, to associate with people, things, the family. One must know how to listen to contrary opinions without becoming annoyed, to dissolve the "I" of anger, to cultivate harmony, so that associations may be harmonious.

19 Tarot and Kabalah, 1978 · ¶2726

Within the 2 are relationships; mother with child, woman with man, man with woman, relationships with things, with the antithesis, with opinions. One must learn to manage ideas, dealings, in peace and serenity; that is the number 2. One must learn to manage the 2.

20 Tarot and Kabalah, 1978 · ¶2727

By means of this Arcanum the Matrix is made, is modelled, where images take form. Arcanum 2 is the Thesis expounding the Antithesis. It is the Fount which accumulates the waters of the Spring. It is the dual manifestation of the Unity. Upon dividing, the Unity gives origin to receptive, productive femininity in all nature.

21 Tarot and Kabalah, 1978 · ¶3229

4 The Hebrew letter Beth expresses the dualism of the two columns

The Hebrew letter Beth expresses the dualism of the two columns of the temple. Jakin is the right-hand column, which is white, the man, the masculine principle and Boaz the black left-hand column, the woman, the feminine principle. Between the two columns 'J' and 'B' is the Great Arcanum. It is precisely this which many masonic brothers do not understand. The Cubical Stone in its crude state is located between the two columns, and once worked it becomes the Cubical Stone of Jesod; this is none other than Sex, the sephiroth Jesod. One must know the Arcanum, the Maithuna, which is represented by the Chisel of Intelligence and the Mallet of Will.

22 Tarot and Kabalah, 1978 ·¶92

The second letter is Hope - Beth The third letter is Charity - Nun The first letter is Death and Regeneration; note what an intimate relationship there is between Death and Water. Arcanum number 13 which is the Death, is related to the Waters; without the Transmutation (Arcanum 14) of the Waters, it is impossible to attain the Second Birth.

23 Tarot and Kabalah, 1978 ·¶1793-1795

The second letter, Arcanum 2, the House of the Spirit, is related to the Sanctum Sanctorum, which means the Consciousness, the Philosophical Stone without which there could be no Transmutation. It is necessary to fabricate the Solar Bodies; new wine (the Intimate Christ) cannot be placed in old wineskins (the lunar bodies). The Solar Bodies need to be fabricated to contain that Sacred Wine.

24 Tarot and Kabalah, 1978 ·¶1799

In Arcanum 2 is the Philosophical Stone with which all of the Transmutations are realised. The Stone, without which sexual transmutation can not be attained, must be chiselled. This means that one must work hard, this indicates to us Arcanum 14, Transmutation.

The astral and mental bodies are the two columns of the Masonic temples (Yachin and Boaz) which have their foundation in the cubic stone of Yesod, the ethereal body. Concentrate well upon these two bodies, and after you realize that you are neither one of these two bodies then realize that they are just two more vehicles of expression that you have thus, discard them from your mind saying: "I am not my astral body. The Sacred Fire cannot be awakened with pranayama nor with respiratory exercises combined with meditation. All these achieve is that tiny fractions or sparks stimulate the awakening of the chakras. Such sparks ascend to one or another of the centres, but this does not mean that the Serpent has been raised. Agni, the God of Fire assists the Fire to awaken, but working in the Ninth Sphere. The laboratory of the Third Logos is our very own sexual organs. The ascendant flux of the sacred fire is the result of sexual transmutation. And this sexual transmutation has twenty-two fundamental Arcana. Here are the twenty-two Major Arcana of the Tarot: Arcanum 1: The Magician. This Arcanum represents man. It is the masculine principle. Arcanum 2: The Priestess-Wife. The wife of the Magician.

13 The key of power rests in uniting Will and Imagination

Arcanum number 2 is the Priestess, in occultism said to be the Dual Manifestation of Oneness. The Unity unfolds giving origin to receptive and productive femininity in all of nature. Clearly, within the human organism is the number 2. This is related with the number 1, Will, and with the number 2, Imagination.

70 Tarot and Kabalah, 1978 ·¶99

One must distinguish between Intentional Imagination and Mechanical Imagination; obviously Mechanical Imagination is the same as Fantasy. The key of power rests in uniting Will and Imagination in Vibrant Harmony.

71 Tarot and Kabalah, 1978 ·¶100

Imagination is feminine. Willpower is masculine. When we work with the prostatic chakra, we must join these two forces in alchemical marriages in order to provoke the ascension of the creative energy: first, through the sympathetic nerve channels of the physical body; second, through the sympathetic nerve channels of the etheric body; third, through the sympathetic nerve channels of the body of desires; fourth, through the sympathetic nerve channels of the causal body. Advanced students must raise the creative energy to the Ain Soph.

So in order to know if Atlantis existed, you would need to verify that information. First of all, studying where Atlantis was located. That it was in the Atlantic Ocean? Okay good! What physical evidence, what data is there, what are its legends, which traditions, etc.? In possession of all that data, we then need to verify it. How will we verify it? Through the technique of meditation. We will have to lie down in our bed –hopefully with our head to the north– our body completely relaxed, our eyes closed. In moments in which we feel predisposed to sleep, we concentrate definitively on Atlantis, combining imagination and will in vibrant harmony. Let us remember that the imagination

is feminine; it is not superfluous to tell you that the will is masculine, and that in the combination of these two polarities is found the key to all power.

Then, with an open imagination, in a receptive attitude, the day can come when you perceive that continent. It is in the akashic records, but it can be reflected in the imagination as in a mirror, and then from there comes direct knowledge. But we have to know how to combine powers. I have said that the imagination is feminine, I have affirmed that the will is masculine, and that in the union of both powers or of both faculties is found the key to all power.

14 Pray with all your heart

PRACTICE: 1. Lie down in your bed, face up, with the entire body relaxed.

75 Esoteric Course of Kabbalah, *1969* ·¶112-113

2. Lull yourself to sleep, meditating on the Sacred Serpent which is in the coccygeal chakra.

3. Pray with all your heart, meditating on the following prayer from a sacred ritual: Invocation "You are, O Hadit!, my secret, the Gnostic mystery of my Being, the central point of my connection, my heart itself, and blossom on my fertile lips, made Verb. There above, in the infinite heavens, in the profound height of the unknown, the incessant radiance of light is the naked beauty of Nut. She reclines, she arches in delightful ecstasy, so as to receive the kiss of the secret desire of Hadit. The winged sphere and the blue of the sky are mine."

O AO KAKOF NA KHONSA O AO KAKOF NA KHONSA O AO KAKOF NA KHONSA These mantrams have the power to transmute our sexual energy into light and fire, within the alchemical laboratory of the human organism. This prayer with its corresponding mantrams can be used during Sexual Magic. This prayer with its mantrams is an omnipotent key for meditation on our Divine Mother.

15 Remember that you have an adorable Mother

In his Rosicrucian Novel, Master Huiracocha said: "For in that moment, when a man is joined with a woman in the secret act, he is a god, because in that moment one is transformed into a Creator. Clairvoyants say that at that precise moment of loving rapture they can see these two human beings enveloped in a flash of brilliant light. They are enveloped in the subtlest and most powerful energies in nature. If they know how to make good use of the moment (by not ejaculating the ens seminis), if they know how to retain their vibration, with it they can work as Magicians in order to purify themselves and attain all. If they do not know how to respect that light, it will abandon them, enclosing itself in the universal currents, but leaving thereafter the doors open, whereby evil enters. Love is converted into hate; illusion gives way to disenchantment…"

With the mantric prayer we teach in this lesson, we retain that brilliant cosmic light which envelops the human couple in the supreme moment of love, upon condition of avoiding at all cost ejaculation of the ens seminis. The mantrams of this invocation have the power to transmute the creative energies into light and fire.

Unmarried men and unmarried women can transmute and sublimate their sexual energies with this supplication and these mantrams, taking the sexual energies to the heart. It is urgent to sublimate the sexual energies to the heart. Know that in the Heart Temple, the creative energies blend with the forces of the Christ and are elevated to the superior worlds. The Inner Christ lives in the Heart Temple. The Cross of Initiation is received in the Heart Temple. This mantric prayer is also a formula of priestly power that the Magician uses in his practices of internal meditation in order to arrive at the feet of his Divine Mother. If meditation is perfect, your adorable Mother will listen to your call and come to you. You will then be able to speak with her about the ineffable things of paradise. She is Devi Kundalini. She is the Papess of the Tarot. The Divine Mother always listens to her devotees. In the sacred land of the Vedas,

the Enlightened Ramakrishna was one of the greatest devotees of the Divine Mother.

Do you want to reach the heights of Nirvikalpasamadhi? Do you want to develop Anubhaya (perception of you Inner God during meditation)? Do you want to know Jinn Science? Remember that you have an adorable Mother. "Ask and you shall receive; knock and it shall be opened unto you."

"O Isis! Mother of the Cosmos, root of love, trunk, bud, leaf, flower and seed of all that exists. Naturalizing force, we conjure you. We call the Queen of Space and of the Night and, kissing her loving eyes, drinking the dew from her lips, breathing the sweet aroma of her body, we exclaim: O Nut! You, eternal Seity of heaven; you who are the primordial Soul, you who are that which was and that which will be. Isis, whose veil no mortal has raised, when you are beneath the radiant stars of the profound nocturnal sky of the desert, with purity of heart and in the flame of the serpent we call you!"

16 Imagination and Will united in vibrant harmony

3rd If you find yourself dreaming that you are at a certain place and you awaken, then do not move, become sleepy once again, with your imagination set on the aforementioned place, feeling yourself there again as if trying to continue the dream just as it was unfolding, while you cling to that place of the dream with thy Will. Imagination and Will united in vibrant harmony is the key to this clue.

84 Zodiacal Course, 1951 ·¶185

There is a key for travelling in the astral body which is very swift; upon awakening from normal sleep, one closes the eyes without moving, and with the eyes closed one vividly imagines any place (but do not imagine that you are imagining). It must be translated into fact. If you feel completely sure of being in the imagined place, Will and Imagination are thus united and it is logical that this Union being attained, the result will be Triumph. Put the Imagination into play, take a walk in the place that you are imagining with "faith". If one does this practice and attains the interplay of Will and Imagination (which is feminine), without moving in bed, maintaining sleep and imagining the place, putting into activity the Will, and with decision getting up from the bed, one will then be able to go wherever one wishes. On one occasion I found myself in a wood and whilst going along a track, I was told about a mountain. Because it was a dangerous place, I went to investigate it in Astral. I imagined the mountain, I saw mist, some steps, and a group of adepts. On entering that place they gave me a spoonful of bees honey, the food of the White Lodge, and the Bread of Wisdom. Later I was told that I would be purged with castor oil to cleanse my stomach. The next day I went out of the body whose stomach had been cleansed. I saw the stars, and practised the Rune MAN: the adepts commanded me to descend to the Worlds of the Infernos. I entered the region of profound darkness where I was attacked by terrible beasts. They were my "Ps" - I had to go through doors that I could barely pass, along narrow paths, and from here I went out through a cemetery. All that which is of the ego is death and misfortune; it is Mephistopheles. One must work very hard.
