The Psychological Ego

How the ego is formed, how it manifests and how it is nourished, and the seven capital sins that head the legion.

THE PSYCHOLOGICAL EGO

Gnostic Psychology is the study of the principles, laws, and causes contained in the Universe, in relation to the radical and definitive transformation of the individual.

1. How is it formed?
2. How does it manifest?
3. How is it nourished?

Each "ego" contains a compartment of bottled Essence.

The Ego expresses itself through photographic and phonographic messages.

7 CAPITAL SINS OR HEADS OF LEGION

1. ANGER
2. LAZINESS
3. LUST
4. PRIDE
5. GREED
6. ENVY
7. GLUTTONY

Through **self-observation**, we can become conscious of our psychological multiplicity and its manifestations.
